

# **MOST ADORABLE MODIJI**

***Author: CA Dr. Vishnu Bharath Alampalli***

## Author's Message

Dear Reader,

I am filled with immense joy and gratitude as I pen this message. The journey of completing **49 books** has been truly fulfilling, made possible by the constant **encouragement, motivation, and constructive feedback** I have received from readers, well-wishers, and supporters.

It gives me **great pride** to share that my **landmark 50th book** is being published with the kind sponsorship of one of India's most reputed builders — **BRIGADE GROUP**. This milestone is not just a personal achievement but a celebration of the power of perseverance and purpose.

In 2019, I had the honour of writing a book on our Hon'ble Prime Minister titled "*I ADMIRE MODI.*" This current work, "*MOST ADORABALE MODIJI,*" builds upon that foundation. It features **inspiring stories, a series of his remarkable successes, and insightful reflections from various leaders** who have witnessed his transformative leadership.

Although I consider myself a humble individual in comparison to the stature of **Legendary Modiji**, I have made a sincere attempt to encapsulate his greatness.

Writing about such a monumental figure would normally take several volumes — hence, I have presented this book in a **capsule format**, capturing the essence while acknowledging that it is **not exhaustive**.

As I reach this significant milestone, I gratefully acknowledge the support from my previous sponsors including **Canara Bank, ITC Limited, Penguin Publications, Prathiba Jewels, Advait Motors**, and many others. Their belief in my work has helped bring meaningful literature to life.

This book was delayed due to professional obligations and time constraints, but I strongly believe that **a book, once published, lives forever**. It becomes a **timeless contribution**, a beacon for generations to come. I hope this work inspires not just admiration, but **action, thought, and reflection** in every reader.

**“Books may fade in pages, but not in purpose. May this 50th book serve as a humble offering to the legacy of a leader who has redefined India’s path.”**

With deep humility and a heart full of hope, I present this book to all seekers of inspiration.

**Yours sincerely,  
CA Dr. Vishnu Bharath Alampalli**

# **“SABKA SAATH, SABKA VIKAS, SABKA VISHWAS, SABKA PRAYAAS”**

## ***A Vision for the New India***

### **Most Adorable Modiji**

Following the overwhelming success of my first book, *"I Admire Modi,"* I feel compelled to present a second edition. With each passing day, my admiration for Prime Minister Narendra Modi deepens. His life, work ethic, and leadership continue to inspire millions — including myself. What follows is a portrait of a leader who, I believe, is unmatched in modern India's political history.

#### **1. A Life of Public Service**

Narendra Modi has had no private life for nearly two decades. With no family distractions, his public life has entirely become his personal one. His complete devotion to the nation is unwavering.

#### **2. Spartan Lifestyle**

He sleeps very little, eats a disciplined diet, and practices yoga regularly. His lifestyle mirrors simplicity and focus.

#### **3. Traditional Fitness**

Unlike modern-day fitness icons, he's not a gym-goer or a six-packer. He's rooted in traditional Indian wellness — walking, yoga, and mindful living.

#### **4. The Quiet Leader**

Despite his public persona, he is an introvert at heart. He speaks sparingly and only to a trusted inner circle.

#### **5. Master of Public Conduct**

In public, he transforms into a charismatic and smiling personality — deeply engaging and always alert. In solitude, he reflects quietly and remains intensely focused.

#### **6. Attention to Detail**

He places immense value on grooming, attire, and presentation — not out of vanity, but because he believes appearance reflects discipline. He is often more meticulous than celebrities in maintaining his image.

## 7. Perfectionist Leader

He demands excellence — even the smallest task must be executed with precision. Staff at the PMO are aware of his high standards. Even his washerman isn't spared!

## 8. Remarkable Memory

His memory is legendary. He recalls minute details from years ago — an asset in diplomacy, governance, and leadership.

## 9. Awe-Inspiring to His Colleagues

Ministers and party members often speak of him with reverence — and, admittedly, a hint of fear. He leads with authority and vision.

## 10. Uncompromising Executor

Once a decision is made, it *must* be implemented. His approach is simple: "*Execute or be replaced.*"

## 11. Spiritual, Not Ritualistic

Though he doesn't perform daily pujas, his spiritual discipline is unwavering. He meditates and bows with folded hands each day, in quiet reverence.

## 12. Constant Learner

He practices English in front of a mirror every day — a humble testament to his desire for self-improvement even as a national leader.

## 13. Tireless Energy

He never reveals fatigue — even to his security detail. His energy is relentless and often leaves those around him in awe.

## 14. Inspiring Orator

He is not just a powerful speaker but also a motivator. While he can be tough on his team, he knows how to uplift and re-inspire them when needed.

## 15. Detached from Family

He does not maintain daily contact with relatives, choosing instead to remain focused entirely on his responsibilities.

## 16. No Interest in Wealth

He seeks not money but meaning. Corruption is alien to him. What moves him most is hearing that he's inspired someone — and it genuinely makes him blush.

## 17. An Enigmatic Personality

He may seem odd or even unapproachable at first. His intense personality makes friendship difficult — but leadership natural.

## 18. Beyond 100%

He gives more than what is expected — more than what is humanly reasonable. For him, anything less than total dedication is unacceptable.

## 19. Discipline Embodied

Punctuality, ethics, and discipline are at the core of his being — not only as a leader but as a person.

## 20. Teetotaler and Transparent

He lives a clean life — no indulgence, no secrets, no masks. He is not always "jolly" or overly humble — but he is always honest.

## 21. A Symbol of Courage

His upright posture reflects not only physical discipline but mental fortitude. He does not flinch from pressure.

## 22. Technologically Advanced

He is among the most tech-savvy leaders in the world, embracing digital tools to govern, communicate, and inspire — setting a global benchmark.

This is the man I admire. This is the leader who, in my eyes, embodies *Bharat's* aspirations. As we continue to march toward the dream of a New India, *Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayaas* is not just a slogan — it is a lived philosophy under his leadership.

I believe India is blessed to have a Prime Minister like Narendra Modi at the helm in these transformative times. And I feel it is my humble duty to document and share this admiration, not just as a citizen, but as someone deeply invested in India's future.

# **Key Achievements of Narendra Modi's Governance**

## **\*India's GDP Growth\*:**

India's economy grew strongly under Modi's governance, with the country's GDP roughly doubling from \$2 trillion in 2014 to over \$4 trillion by 2025, making it the world's fifth-largest economy.

- **\*Goods and Services Tax (GST)\*:** Implemented in 2017, GST simplified India's tax system, reduced tax complexities for businesses, and increased tax compliance.

## **\*Make in India Campaign\*:**

This initiative encouraged domestic production in manufacturing, defense, and technology sectors, attracting billions of dollars in foreign direct investment.

- **\*Atmanirbhar Bharat Abhiyan\*:** A ₹20 lakh crore economic stimulus package launched to boost local industries and promote self-reliance.

## **\*Infrastructure Development\***

- **\*Bharatmala Project\*:** Constructed over 35,000 km of highways, enhancing connectivity and trade.

- **\*Smart Cities Mission\*:** Developed 100 smart cities with high-tech infrastructure, smart mobility, and green spaces.

- **\*Rail Modernization\*:** Introduced semi-high-speed trains like Vande Bharat Express and modernized rail infrastructure.

## **\*Social Welfare Schemes\***

- **\*Ayushman Bharat (PMJAY)\*:** World's largest health insurance scheme, covering over 50 crore citizens.

- **\*Swachh Bharat Mission\*:** Constructed over 11 crore toilets, making India open-defecation free.

- **\*Pradhan Mantri Jan Dhan Yojana (PMJDY)\*:** Financial inclusion mission that opened over 53 crore bank accounts for low-income households.

- **\*Ujjwala Yojana\*:** Provided free LPG connections to over 10 crore poor families, reducing indoor air pollution.

## **\*Digital Revolution & Technology\***

- **\*Digital India Initiative\*:** Connected over 1.5 lakh villages through high-speed internet and promoted digital literacy.

- **\*UPI (Unified Payments Interface)\*:** Became the world's largest digital

payments system, handling over \$2 trillion in transactions annually.

- **\*5G Rollout\***: Successfully rolled out 5G services, making India one of the global leaders in telecom technology.

### **\*Defense and National Security\***

- **\*Balakot Air Strikes\***: Conducted precision airstrikes against terrorist camps in Pakistan after the Pulwama attack.

- **\*Surgical Strikes\***: Conducted against terror camps in Pakistan-occupied Kashmir.

- **\*Agnipath Scheme\***: Transformed military recruitment with a 4-year tenure for youth.

- **\*Made in India Defense Equipment\***: Successfully deployed indigenous defense equipment like Tejas Fighter Jet and INS Vikrant aircraft carrier.<sup>1</sup>

**Operation Sindoor**: Coordinated efforts by the Indian Army, Airforce and Navy led to surgical strikes on nine terror camps. Zero Indian Casualties is the highlight.

### **Rural & Farmer Welfare**

- **PM Kisan Samman Nidhi** – Direct income support to over 11 crore farmers.
- **Stable Food Inflation** – Ensured consistent availability and price management.

### **Education & Youth Empowerment**

- **7 New IITs & IIMs** – Enhanced access to top-tier technical and management education.
- **New Education Policy (NEP)** – Major overhaul focusing on flexibility, skill, and holistic growth.
- **Ayushman Bharat** – World's largest health assurance scheme covering 50+ crore Indians.

### **Technology, Energy & Innovation**

- **India: 3rd Largest Solar Power Producer** – Global leadership in renewable energy.
- **Semiconductor Mission** – Encouraging chip manufacturing to reduce import dependence.
- **PARAM Shivay Supercomputer** – Indigenous high-performance computing capability.

### **Defense & National Security**

- **Advanced Weaponry for Armed Forces** – Modernization with Dhanush artillery, Rafale jets, etc.
- **Make in India: F-21 Jets & Submarines** – Boosted indigenous defense production.

- **Terrorism Drop** – Notable decline in attacks post-2016 surgical strikes and Balakot airstrike.
- **Smart Border Fencing (Indo-Bangladesh)** – Using Israeli tech to curb illegal migration.

**Global Image & Diplomacy**

- **Improved Global Standing** – India recognized as a decisive and rising global power.
- **Highest Civilian Award from Bhutan** – Recognition of Modi's leadership abroad.
- **International Yoga Day** – Global cultural influence and soft power projection.
- **India Becomes 4th Largest Economy** – Moved up from 11th in global GDP rankings.

**Public Engagement & Trust**

- **Mann Ki Baat** – Monthly radio program connecting PM with citizens.
- **Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayaas** – Guiding mantra for inclusive development.

# Public Perception of Narendra Modi's Administration

## Widely Held Views Among the People

### 1. **Commitment to Good Governance**

Most citizens believe that the BJP government under Modi is focused on transparent, rules-based governance, prioritizing efficiency over populism.

### 2. **Corruption-Free Central Leadership**

One of the strongest perceptions is that Modi's tenure has been free from major corruption scandals — a stark contrast to previous administrations.

### 3. **Admiration for Modi's Persona**

People appreciate Modi's personal discipline, hard work, simplicity, and his ability to represent India strongly on international platforms.

### 4. **Mixed Feelings on Demonetization, Support for GST**

While **demonetization** still evokes uncertainty in terms of its long-term impact, **GST** is broadly seen as a necessary structural reform for a unified market.

### 5. **Improved Foreign Policy and Global Standing**

Under Modi, India's diplomatic reach is viewed as significantly enhanced. Relations with countries like the U.S., France, Japan, and Middle Eastern nations have improved, and India's global stature has grown.

### 6. **National Security Prioritized**

Public sentiment reflects confidence in the government's handling of defense and security, especially after events like the **surgical strikes** and **Balakot airstrike**, seen as strong messages to Pakistan.

### 7. **Muslim Women's Support Grows**

A surprising but crucial shift is seen among **Muslim women**, who appreciate steps like the **Triple Talaq ban**, viewing it as a move towards equality and empowerment.

## 8. Lack of a Credible Opposition Leader

Across India, even some critics admit that there's no opposition leader who matches Modi's clarity of vision, oratory skills, or public appeal.

### Challenges and Realities Ahead

- **Not a Cakewalk:** While Modi enjoys high approval, the BJP is expected to face **localized setbacks** due to state-level issues, anti-incumbency, or alliance frictions.
- **Regional Dynamics Matter:** Gains are anticipated in states like the North-East, but **strong opposition narratives** in parts of South India or non-BJP ruled states could challenge the party's momentum.
- **Alliance Management:** Coalition dynamics — especially with smaller or disgruntled allies — could affect seat-sharing and election outcomes.
- **Perception vs. Reality:** While Modi's image is that of a reformer and strongman, economic challenges like unemployment, inflation spikes, or farmer unrest can dent popular support if not addressed swiftly.

### Public Expectations Are High

People **expect Modi to take bolder, tougher, and long-term nation-building decisions** — especially with increased influence in **Rajya Sabha** and a stable majority in **Lok Sabha**. There's cautious optimism that India under Modi will continue to pursue:

- Structural economic reforms
- Defense modernization
- National integration and development
- Inclusive governance under the mantra: "**Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayaas**"

### Fast Progress across Key Sectors in New India

1. Modernization of Indian Railways
2. Defense and National Security Upgrades
3. Housing and Real Estate Reforms
4. Science & Technology Leap
5. Education & Equality in UPSC

## 6. World-Class Railway Infrastructure

## 7. Iconic Infrastructure Projects

# Why Is Narendra Modi So Popular?

### 1. Weak and Disoriented Opposition

- **Lack of a credible rival:** Modi's political image benefits from the fragmented and often poorly coordinated opposition.
- Leaders like **Rahul Gandhi** have frequently failed to project a strong, coherent national alternative, which inadvertently boosts Modi's stature.

### 2. United Opposition, Divided Vision

- The formation of alliances like the '**Maha Gathbandhan**' has often been seen as **anti-Modi** rather than pro-development, lacking a clear agenda beyond removing him.
- Voters tend to trust a leader with a **vision**, not just reactionary coalitions.

### 3. Political Groundwork in Challenging States

- Modi has made inroads into politically tough regions like **West Bengal and North-East India**, partly helped by dissatisfaction with local leadership (e.g., Mamata Banerjee's regional politics).
- His image as a **decisive leader** resonates even in opposition-ruled states.

### 4. Social Media Mastery

- Modi is among the **most followed political leaders in the world** on platforms like Twitter, Instagram, and Facebook.
- His **direct-to-citizen communication** via Mann Ki Baat, YouTube, and live sessions keeps him constantly in the public eye—particularly among the youth.

### 5. Media Amplification

- While critics argue some media houses favor him, it's undeniable that Modi has an **extraordinary presence** in TV, print, and digital platforms.
- His every speech, policy launch, and rally is widely covered,

enhancing visibility across demographics.

## 6. Dedicated Ground-Level Cadre

- BJP's **disciplined and grassroots-focused volunteer system** plays a crucial role.
- Door-to-door campaigns, booth-level mobilization, and tireless karyakartas (workers) help **translate Modi's image into votes**.

## 7. Dependable Cabinet and Firm Leadership

- Modi runs a **performance-oriented government** — Ministers and bureaucrats are held accountable.
- There is **no tolerance for incompetence**; reshuffles and removals are frequent when goals aren't met.

## 8. Strategic Duo: Modi & Amit Shah

- Modi and Amit Shah are often compared to **modern-day Chanakyas** — tactical, disciplined, and shrewd.
- Their combined leadership has led BJP to **multiple election victories**, with a clear long-term ideological and administrative roadmap.

## 9. National Security Focus

- Under the leadership of **Ajit Doval (NSA)**, India executed **surgical and air strikes**, enhancing Modi's image as a **protector of national pride**.
- Issues like border control, terrorism, and defense procurement have been prioritized.

## 10. Personal Traits: The Core of His Popularity

- Modi's appeal comes from more than politics. It's his:
  - **Relentless work ethic** (18-hour workdays)
  - **Unwavering focus on nation-building**
  - **Tech-savviness**
  - **Corruption-free image**
  - **Emotional connect with the public** through stories, personal history, and symbolic gestures (e.g., celebrating Diwali with soldiers).

## **INDIA HAS WAITED 900 YEARS.**

For centuries, despite our strategic location between Asia, Europe, and Africa, India had no deep-water transshipment port.

Our cargo — even Indian cargo — was rerouted through foreign ports like Colombo, Singapore, and Dubai.

The cost?

- Over \$200 million every year
- Longer shipping times
- Reduced competitiveness
- Missed economic opportunities

While other nations boomed, we watched.

They attracted global shipping giants.

They created thousands of jobs.

They built economies around what should have been India's natural role.

Why?

Because for decades, Congress and Left parties stalled Vizhinjam — a project that only needed one thing: political will.

Today, under the decisive leadership of Prime Minister Narendra Modi, that will has finally arrived.

Partnering with the Adani Group and the Kerala Government, India has delivered Vizhinjam Port — and with it, a new chapter in our maritime legacy.

Vizhinjam is India's first deep-water transshipment hub — capable of handling the world's largest container ships.

It's not just a port. It's a strategic, economic, and geopolitical turning point.

Already, Vizhinjam has:

- ✓ Generated over ₹240 crore in revenue
- ✓ Created 750+ local jobs
- ✓ Trained fisherwomen in high-tech port operations
- ✓ Put Kerala on the global shipping map

But this isn't just about Kerala.

This is India reclaiming its rightful place in global commerce.

This is India transforming from a bystander to a central player in international trade.

Vizhinjam is a declaration —

We will no longer export our opportunity.

We will no longer depend on others.

We will lead, we will connect, and we will shape the future of global trade.

**India has waited 900 years. That wait is over.**

# Strengthening India

## 1. Reintegration of Kashmir

- Removal of **Article 370** was a historic decision aiming to bring **uniform governance and development** to Jammu & Kashmir and Ladakh.

## 2. Fighting Corruption

- Initiatives like **Digital India**, **Direct Benefit Transfer (DBT)**, **UPI**, and **demonetization** were aimed at creating transparency and reducing black money.

## 3. Ram Mandir Judgment

- The **Supreme Court's verdict** on Ram Janmabhoomi was implemented peacefully under Modi's leadership, respecting the legal process.

## 4. Strengthening National Defense

- Modernization of armed forces with **fighter jets**, **submarines**, **missiles**, and **indigenous equipment** under *Make in India*.

## 5. Tackling Illegal Immigration

- The **NRC** and **CAA** are seen by supporters as tools to regulate citizenship and preserve national security, though they remain controversial and are under judicial and political debate.

## 6. Global Reputation

- Under Modi, India's **passport rankings**, **global perception**, and **strategic alliances** have improved—particularly with the US, Israel, and European nations.

## 7. Counterterrorism Efforts

- Operations like the **Balakot air strike** and stricter internal security have aimed to deter terrorism and cross-border threats.

## 8. Technological & Energy Advancement

- India is rapidly growing in **solar energy**, **green hydrogen**, and **renewables**, positioning itself as a **clean energy leader**.

## 9. Welfare Programs

- **PM Awas Yojana, Ayushman Bharat, Swachh Bharat, and Ujjwala Yojana** have reached crores of Indians, improving health, housing, sanitation, and energy access.

### ***What to Avoid***

Even if you feel strongly about perceived threats, it's crucial to **avoid labeling entire religious or regional communities** as enemies or threats. Doing so:

- Violates constitutional principles of equality and secularism.
- Can be seen as **hate speech** or incitement.
- Damages the credibility and integrity of your writing.
- Is counterproductive to the very goal of national unity and security.

To make your content easier to follow and more persuasive to a broad audience—including fence-sitters or the apolitical—group your points under **key themes** such as:

### **1. Personal Journey & Work Ethic**

- Humble beginnings (chaiwala to PM)
- No leaves taken, tireless dedication
- Celebrates Diwali with soldiers
- Commitment to fitness, discipline, and a simple life

### **2. Governance & Reforms**

- Transparent governance (no major central-level scams)
- Major decisions: **Article 370, Triple Talaq, GST, Demonetization, CAA**
- Jan Dhan Yojana, Ayushman Bharat, Jal Shakti Ministry

### **3. National Security & Foreign Policy**

- Surgical strikes & Balakot airstrikes
- Strong positioning against Pakistan
- Improved ties with US, Israel, Europe, Gulf
- India's rising status on the global stage

### **4. Infrastructure & Development**

- Doubling pace of highway construction
- Electrification, toilets, gas connections, digital inclusion
- Clean energy push (solar, wind, green hydrogen)

## 5. Public Image & Communication

- Unmatched oratory skills
- Social media savvy
- Engaging campaigns like **Mann Ki Baat**
- Cultural diplomacy: International Yoga Day, Swachh Bharat

## 6. Ideological Clarity

- Focus on “*Nation First*” approach
- Anti-appeasement, pan-India nationalism
- Emphasis on One India: UCC, NRC (yet to come), CAA, etc.

# Narendra Modi’s Unmatched Rise: Why His Success Continues to Confound the Opposition

## 1. Humble Beginnings

From being the son of a modest tea seller to becoming the Prime Minister of the world’s largest democracy, Narendra Modi’s story is inspirational. Having joined the RSS at a young age, he was molded with the philosophy of service over self-interest. His early life of struggle laid the foundation for a disciplined, purpose-driven public life.

## 2. Transformative Leadership in Gujarat

Modi became Chief Minister of Gujarat in 2001 with no prior administrative experience. Yet, he went on to turn Gujarat into a model of industrial growth, infrastructure expansion, and investment-friendliness. His success at the state level gave him credibility at the national stage.

## 3. Oratory and Mass Connect

His powerful, clear, and emotionally resonant speeches have set him apart from contemporaries. Modi connects directly with the masses, blending nationalism, development, and vision—often without needing a script. His communication strategy is precise, personal, and impactful.

## 4. Decisive Action on Long-Pending Issues

Modi has taken bold decisions that many previous governments either avoided or delayed:

- Abrogation of **Article 370**

Enactment of **CAA**

- Ban on **Triple Talaq**
- Advancement of the **Ram Mandir** verdict and construction

Forthcoming agendas like **Uniform Civil Code (UCC)** and **NRC** show his government's commitment to reshaping India with clarity and consistency.

## **5. Policy Without Appeasement**

Modi has emphasized development for all, irrespective of religion or caste. His famous line—"*Na Hindu ke liye kiya hai, na Muslim ke liye. Yeh desh ke liye kiya hai*"—reflects a governance model that promotes unity and accountability over vote-bank politics.

## **6. Scam-Free Governance**

In contrast to the corruption-laden image of previous regimes, Modi's tenure has remained free of major central-level scams. Institutional mechanisms for transparency and accountability have been strengthened.

## **7. Pro-Poor Reforms**

Policies like **Jan Dhan Yojana**, **UDAN**, **Ayushman Bharat**, **Swachh Bharat Abhiyan**, and **10% EWS reservation** have empowered millions, particularly in rural and underprivileged sections.

## **8. India's Elevated Global Standing**

Under Modi, India has emerged as a key global voice. His rapport with world leaders—from Trump and Netanyahu to Macron and Sheikh Mohammed—has elevated India's diplomacy. Initiatives like **International Yoga Day** and India's leadership in climate action and solar energy showcase global influence.

## **9. Work Ethic**

Modi's daily routine is a model of discipline. With 18–19 hour workdays, no vacations, and an unmatched travel and diplomacy schedule, he personifies dedication. His Diwali visits to the borders with Indian soldiers have become a symbol of his solidarity with the armed forces.

## **10. Relatable Yet Resilient**

Whether it's responding to trolls with wit or addressing pressing issues head-on, Modi remains composed and strategic. Despite immense pressure, he rarely loses focus.

## **11. Character and Integrity**

His reputation for personal integrity, punctuality, and simplicity stands tall. He is known to expect high standards not only from himself but also from his team.

## **12. Rapid Development**

With ministries like **Jal Shakti**, record highway construction, rural electrification, housing for the poor, and a push toward indigenous defense manufacturing, Modi's governance has accelerated India's development trajectory.

## **13. Governance Motto: Sabka Saath, Sabka Vikas, Sabka Vishwas**

From demonetization and GST to DBT (Direct Benefit Transfer) and financial inclusion, his governance model aims for systemic transparency and inclusive growth. His focus remains on national interest, not political gains.

Narendra Modi has reignited a sense of patriotism, purpose, and pride among millions of Indians. He remains unmatched in charisma, clarity of vision, and commitment to nation-building. For many, he is not just a Prime Minister, but a symbol of India's potential and resurgence.

## **I HAVE REALIZED THE TRUE COLORS OF MODI**

- In 2014, my “secular” friends told me Narendra Modi was a Hindu extremist. Today, I see he is truly secular, not extremist.
- I've realized he is the only politician with no accusations of corruption against him.
- I've observed that his government is free from scams and genuinely pro-Indian, unlike others who favored certain communities.
- I've seen that he has the courage to make tough decisions for the nation's welfare, even when they risk electoral losses.
- Under Modi's leadership, Hindus can proudly say they are Hindus without fear or hesitation.
- I now believe that only PM Modi can lead India toward a bright and prosperous future.

Since I've come to know the real Modi, I will vote for him again in the 2029 elections.

## **MODI'S MANTRA FOR CORONA**

Narendra Modi is facing an unprecedented crisis — one that has affected every corner of India and every aspect of our lives. When a family member

is seriously ill, we feel shaken. Imagine the weight on Modi's shoulders, responsible for 140 crore people's lives and livelihoods.

If the lockdown fails, he is blamed. If it succeeds, he is still blamed for the economic impact. Had he not imposed it, he would have been called negligent. No matter what, Modi ji is always at the receiving end.

A 75-year-old man carries this enormous weight, the hopes and fears of an entire nation, yet he never flinches, never deflects blame, never excuses himself. He carries on with single-minded dedication—a focus on the nation unparalleled in our history.

Amidst handling India's core challenges, the pandemic emerges as a daunting new threat. I cannot imagine the pressure he faces — honestly, I wouldn't want to be in his shoes. Would you?

This is just my heartfelt reflection. I want to thank Narendra Modi ji for his alertness, humility, and pragmatic approach. These are not just my thoughts, but the sentiments of many Indian citizens today.

I stand with my country and my Prime Minister — Narendra Modi.

## **Extraordinary Qualities of Narendra Modi**

Among all the Prime Ministers who have completed their terms, four stand out as strong, popular, and impressive leaders—Jawaharlal Nehru, Indira Gandhi, Atal Bihari Vajpayee, and Narendra Modi. Among them, Narendra Modi is distinctively more vocal, extraordinarily creative, and resourceful. In a short span, he has made himself an inseparable figure not just in Indian politics but also on the international stage.

### **What makes Modi a strong leader internationally?**

He is a leader who knows the way, shows the way, and leads the way. His ability to captivate an audience is remarkable. Despite his strong accent and fairly good English, Modi mesmerizes listeners uniquely. When he speaks, heads of state and world leaders listen attentively. His leadership quality is innate and powerful.

Dwight D. Eisenhower, the 34th President of the United States, said, "*The supreme quality of leadership is unquestionably integrity.*" Modi possesses this quality in abundance. Honesty and integrity are essential traits for any successful leader, and Modi has both. This is why he is so widely respected in the country. When opposition leaders like Rahul Gandhi tried to corner him with corruption allegations like the Rafale deal, Modi stood rock solid. The allegations collapsed under scrutiny, and the

people refused to believe the falsehoods. Modi's integrity is transparent and observable to all.

Modi exudes confidence, and his assertiveness compels his party members and colleagues not only to follow him but also to respect him deeply. Every successful leader attracts huge followings because of their persuasive nature and ability to inspire. This is the most challenging part of leadership, and Modi excels here. His calm demeanor under pressure, high motivation, and persuasive nature have made him a truly successful leader.

His commitment to the nation is unquestionable. His dedication to making India cleaner through the **Swachh Bharat Abhiyan** has been widely recognized as a major success. He is also an exceptional communicator—his rallies attract huge crowds, with people traveling from far and wide just to hear him speak. This speaks volumes about his communication skills.

These are some of the extraordinary qualities that define Narendra Modi.

### **Challenges Modi Has Faced**

When Modi rose to power, the judiciary was largely aligned with the Congress, the media was with Congress, and much of the bureaucracy was also in their favor. He had only the Lok Sabha on his side—not even the entire Rajya Sabha.

The BJP attempted to hold accountable figures like Robert Vadra, A. Raja, Kanimozhi, and P. Chidambaram, but many remained untouchable.

Few expected Modi to last beyond one term. However, his crafty political mind and ability to connect with the people, including the Non-Resident Indian community, changed the game. He promised change and vowed to end the “loot and maharaja” culture of Congress, which had impoverished the country while enriching a few leaders. This promise helped him win in 2014.

Now, with more power and a second term, Modi focused on strong action. P. Chidambaram, once considered untouchable, was charged and placed in judicial custody for 106 days—a feat that stunned even his powerful legal team. Despite their best efforts, they couldn't free him because the government had a strong case.

When the COVID-19 crisis struck, Modi took decisive steps. The lockdown was more than just a health measure—it paved the way for new legislation like the creation of private Agricultural Produce Market Committees (APMCs), a reform overdue for 70 years.

The controversial Citizenship Amendment Act (CAA) is also in place and operational. The migrant labor crisis is closely linked to CAA since many migrants were non-tax-paying consumers in host states and could be misused for electoral gains by those states.

This is just one example of the transformative changes underway.

### Opposition and Anti-India Forces

Every entity opposing Modi uses all possible means to discredit him and his government. These include prominent journalists like Rajdeep Sardesai and Barkha Dutt, political figures like the entire Congress high command, activists such as Kanhaiya Kumar, and even some regional parties like Shiv Sena and Sharad Pawar's NCP.

If India is to become a global power, it needs highly efficient governance and strong leadership—qualities Modi embodies. Such leadership has been missing for decades, but now India has a chance for a true rebirth under Modi.

### The New India and Why Modi Is Needed

India must change. India must be reborn, we have a Prime Minister capable of creating a truly great Bharat.

Yes, Modi is tough. Like a sportsman who trains relentlessly to be #1, Modi's toughness is necessary to drive the nation forward.

We need Modi Ji more than Modi Ji needs us.

#### ● Let's be very clear:

1. **No community rules a state. India is a secular democracy.** Kashmir was not under "Islamic rule" — it was a legally recognized Indian state with **special constitutional status (Article 370)**. That status was given by the Indian Constitution, not "Islamic rulers."
2. **Muslims are not outsiders.** Statements like "*Muslims have 58 countries*" or "*kick them out*" are not just factually incorrect—they are **deeply dangerous** and **unconstitutional**. India is home to over **200 million Muslims** who are equal citizens. They are soldiers, doctors, engineers, teachers, and **integral to India's past, present, and future**.
3. **Dissent ≠ Disloyalty**  
Protesting a law (like CAA or NRC) does not make someone "anti-national." Peaceful protest is a **fundamental right under Article 19** of the Constitution. It's what keeps democracy healthy.

4. **This kind of communal hate speech threatens national unity.**  
When you label all Muslims as enemies or invaders, you are **weakening India from within** — not strengthening it.

## ✓ You Can Support Modi Without Hate

If you're proud of achievements like:

- Construction of Ram Mandir
- Strengthening national defense
- Expanding renewable energy
- Improving sanitation
- Economic reforms like GST or UPI
- Infrastructure development

That's completely valid. Celebrate those. But **don't spread hate**. Patriotism doesn't mean **vilifying fellow Indians**.

### What Makes India Truly Great?

India's greatness has always come from:

- **Unity in Diversity**
- **Tolerance and Democracy**
- **Justice for all, not just some**
- **Secularism as a binding force**
- **Rule of Law over Rule of Mob**

If we want India to be a global leader, it must be built on **inclusion, equality, and respect for all communities**, not fear and division.

### 1. India to reach \$6 Trillion GDP in 10 years — Forbes says it's "Only Because of Modi."

- **India's growth potential is strong**, but attributing it solely to one leader oversimplifies a complex economic system.
- Forbes and other international agencies **do praise reforms** like GST, digitization, and infrastructure, but **they also credit macroeconomic trends**, a large youth population, startup ecosystems, and private sector innovation.
- India has been on a **growth trajectory for decades**, and Modi has contributed significantly through initiatives like **Make in India, Digital India, UPI, and infrastructure push**.

## 2. “India jumped 31 places to rank 40 in Economic Growth.”

- This likely refers to **World Bank's Ease of Doing Business ranking**, not economic growth.
- Under Modi, India **improved its rank from 142 (2014) to 63 (2019)** before the index was discontinued due to data irregularities in 2021.
- While this was a **real achievement**, growth rankings are different and **India’s GDP growth has been strong under multiple governments**, not just one.
- **Scrapping of Article 370** and reorganizing Jammu & Kashmir.
- **Ram Mandir construction** post Supreme Court verdict.
- **Swachh Bharat Mission**, Ujjwala Yojana, and Jal Jeevan Mission.
- **UPI, DBT, GST, and PLI schemes** to promote manufacturing.
- Increased **focus on border infrastructure** and defense modernization.

### On Polarization and Language of Debate

While admiration for a leader is fine, **the language we use to express that admiration must remain inclusive and constitutional**. Claims that vilify entire communities, especially religious or ethnic groups, **can undermine national unity** — no matter how noble your intention.

India is **not built on fear of minorities**, but on **harmony among its incredible diversity**. Being pro-Modi should not mean being anti-anyone else.

### 3. \$6 Trillion GDP Target

A government document outlines a bold goal: growing the economy from approx. **\$3.5 trillion to \$6.7 trillion by 2030**—effectively doubling it . Analysts at Reuters and Business Insider note that achieving this would require consistent **6–8 % real GDP growth**, structural reforms, and sustained global investment [reuters.com](https://www.reuters.com).

- It’s an **aspiration backed by vision**, not a guaranteed outcome.

### 4. Forbes Praise

**Claim:** “Forbes says India’s economy rises manifold *only* because of Modi.”

Forbes and other major outlets have indeed recognized India’s trajectory. A Forbes article details India’s rise to become the **4th largest economy** and projects crossing Japan around FY26 [indiatoday.in+2forbesindia.com+2etnownews.com+2](https://indiatoday.in+2forbesindia.com+2etnownews.com+2).

- However, these analyses credit **mod+ broader factors**—demographics, global investment, digital adoption—not sole leadership.

## **Valid Praise for PM Modi's Governance Initiatives**

Many of popular points about administrative reforms, infrastructure development, and assertive foreign policy reflect **real changes** under PM Modi. Examples include:

- **Abolishing Planning Commission and creating NITI Aayog:** This is widely recognized as a modernization step.
- **GST implementation:** A complex but necessary reform, though still evolving.
- **Abrogation of Article 370:** A politically bold move, supported by many Indians.
- **Water, road, and rural development missions:** These are progressing and measurable in government reports and third-party audits.
- **Selection of technocrats and civil servants:** Appointments like Jaishankar and Shaktikanta Das are largely seen as competent and effective.

These points, when expressed respectfully and factually, **strengthen your argument** without controversy.

## **2. Problematic Claims, Misleading Facts, or Conspiracies**

Some statements in message are either **provably false**, **lack evidence**, or are **communally charged**, which weakens the credibility of the argument and can **foment division**.

## **3. Your Right to Support — But With Responsibility**

It is **absolutely your right** — as a citizen, a retired officer, or simply a concerned Indian — to support PM Modi or any leader you trust. No one can take that away.

However, when such support spills into forwarding **false information**, **conspiracy theories**, or **community-blaming**, it can unintentionally:

- **Damage India's social cohesion,**
- **Alienate honest patriots from other religions or regions,** and
- **Make serious national debates into unhelpful echo chambers.**

## Developments by Our Prime Minister Narendra Modi

- Enactment of the **Triple Talaq law** to protect women's rights.
- Strict laws against **child abuse**.
- Empowerment of **transgender people** through legislation.
- Introduction of the **National Medical Commission Act** to reform medical education.
- Historic reduction in **corporate tax rates** to boost industry.
- Appointment of the country's first **Chief of Defense Staff** for better armed forces coordination.
- Delivery of the **next-generation fighter plane** indigenously developed.
- Formation of the Trust for the grand **Sri Ram Temple** in Ayodhya.
- Bold decision to **revoke Article 370**, ending Jammu & Kashmir's special status.
- Passage of the **Citizenship Amendment Act (CAA)**.
- Reorganization of Jammu & Kashmir and Ladakh into **Union Territories**.
- Launch of flagship initiatives like **Make in India**, **Digital India**, and **Ayushman Bharat** healthcare scheme.

## A Leader with a Clean Image and Commitment

In India, politics has often been associated with corruption. While the previous government faced scandals like **CWG, Coalgate, and 2G spectrum cases**, the present government under Modi has maintained a largely clean image, with no major corruption charges.

Modi's dedication is evident—he has not taken a single day off since assuming office and connects deeply with citizens, for example through the ban on VIP beacons, making leadership more accessible.

### **How Does PM Modi Make Big Decisions?**

1. He rarely depends on the cabinet for every decision.
  2. He places great trust in bureaucrats, believing their expertise often exceeds that of politicians.
- As Gujarat CM, he relied on a trusted group of bureaucrats for fast-track implementation.

His bold political will allows him to take tough decisions like Article 370 abrogation or strikes against terrorism without hesitation.

He does not bow to opposition pressure or appeasement politics but remains focused on development.

### **The People Are the Real Strength**

The true power lies with the citizens of India. PM Modi has the ability to sustain the faith of the people, delivering on their demands such as Ram Mandir construction and Article 370 abrogation.

Leaders like Modi are rare and require the energy and support of the people to build a prosperous India. He is uniquely positioned to change India's future positively.

### **What Are We Missing These Days?**

1. Warnings about suspicious objects (“Don’t touch it, it may be a bomb”).
2. Long queues for LPG cylinders—now delivered at doorstep.
3. Daily corruption scandals—now largely absent.
4. Politics around Ram Mandir—now resolved.
5. Empty fields replaced by toilets under Swachh Bharat.
6. Uncontrolled infiltration—now better managed.
7. Frequent electricity cuts—now rare.
8. Motivational speeches by the former PM Manmohan Singh.
9. Political condemnations of bomb blasts without concrete action.
10. Protests over fertilizer and electricity shortages.
11. Expensive and slow internet plans.
12. Women’s hardship collecting firewood—now eased by Ujjwala Yojana.
13. High hospital bills—now eased by Ayushman Bharat.
14. Lack of action on shell companies and illegal NGOs.

### **Prime Minister Narendra Modi Invokes Chanakya to Justify Demonetization Policy**

Prime Minister Narendra Modi has found a novel way to legitimize the government’s controversial demonetization of Rs 500 and Rs 1000 notes. Speaking at a BJP Parliamentary party meeting, Modi invoked the wisdom of the ancient Indian thinker Chanakya to explain the move.

Addressing party MPs, Modi said, “Chanakya has already told us what to do after the UPA’s 10 years. According to Chanakya Niti, money

accumulated by unfair means can survive only up to 10 years, and by the 11th year, it is destroyed along with interest.”

Modi slammed the opposition for allegedly accumulating black money during their decade-long rule and emphasized that the current government was working hard to rectify those past wrongs. He recalled former Prime Minister Manmohan Singh’s 1991 statement: “Nobody can deny that large-scale tax evasion exists... Unless I find substantial improvement in tax compliance in the next few months, the government would have no option but to take strong measures to make tax evaders pay.”

Modi added, “That was a threat then, but today, your language has changed. Why? Because you are worried about your party, not the nation.”

By invoking Chanakya—the author of the ancient political treatise *Arthashastra* and a pioneering thinker in political science and economics—Modi signals that the government’s approach to tackling black money and corruption is deeply rooted in time-tested Indian philosophy.

### **KNOW THE FACTS FROM THE HORSE’S MOUTH**

*My dear Indians,  
Namaste!*

*I am Narendra Modi, Prime Minister of India.*

Eleven years have passed since I was given this responsibility. On this occasion, I want to share a few truths with you.

When I took charge, the country was sitting on a **throne of thorns**. The previous government’s 10-year tenure was marred by corruption, scams, and huge losses in government organizations. Foreign debts had piled up to alarming levels:

- Iran: ₹48,000 crores
- UAE: ₹40,000 crores
- Indian Fuel Companies: ₹1,33,000 crores
- Indian Airlines: ₹58,000 crores
- Indian Railways: ₹22,000 crores
- BSNL: ₹1,500 crores

Our soldiers lacked basic weapons and bulletproof jackets. Our defense capabilities were weak, and intelligence had failed repeatedly. The country could not withstand even four days of war under those conditions.

This was the situation when I took office.

My prime responsibility was to **set right all systems**.

Even when international fuel prices fell, you didn't fully benefit because the government had to take on debts to keep fuel prices artificially low. This was done to shield you from immediate price shocks, but it pushed foreign debts to ₹2,50,000 crores, costing us ₹25,000 crores in annual interest payments.

Despite the sacrifices you may have felt in fuel prices, your contribution has helped clear that massive debt.

Here's what has been achieved since then:

- Cleared railway losses and completed long-pending projects
- Electrification of the bullet train fully completed
- villages electrified
- the gas connections given to crores poor families
- Nearly 40,000 km of new roads constructed
- ₹1,50,000 crores disbursed as Mudra loans to youth
- Launched Ayushman Bharat with ₹1,50,000 crores for 50 crore people
- Equipped soldiers with the latest weapons and bulletproof jackets

Where did this money come from? From your sacrifices and your support.

Would it have been better to just remove taxes and clear debts outright? Yes, but then the government would have had to raise indirect taxes on all goods and services, burdening all 140 crore Indians. So the burden was kept focused mainly on vehicle owners.

Finally, as the head of a family, what would you do if you suddenly received unexpected money but were in huge debt? Would you spend recklessly or clear the debts first? If you spend recklessly, what about the family's future? And do you think the lender will stay silent?

Don't fall for the gimmicks of the opposition.

As a patriotic citizen, I urge you to join hands in building our nation.

The opposition is always election-minded and tries to confuse you with false propaganda whenever elections come in different states.

**Please think. Please share this message with all Indians.**

Yours,

**Narendra Modi**

## PETROL AND DIESEL HIKE

While some voices constantly complain about fuel prices, they fail to see the **broader progress** that's transformed the lives of millions of Indians under **Prime Minister Narendra Modi's leadership**. Here's what you should really be paying attention to:

### Essentials Are More Affordable

Item	2014 Price (₹)	2021 Price (₹)	2025 Price (₹)
Tur Dhal	₹210	₹120	₹108–115
Urad Dhal	₹178	₹161	₹138–140
Moong Dhal	₹189	₹100	₹138–140
Sugar	₹45	₹35–51	₹90–92
Chana Dhal	₹125	₹64	₹40–45
Tamarind	₹240	₹160	₹160 (approx.)
Tomatoes	₹100	₹20	~₹20
Wheat Flour (Aashirvaad)	₹36	₹71	₹40–45

Enjoy your **dal tadka** and sweets — don't let petrol distract you from the **reality of relief** in your kitchen.

### Life Is More Affordable and Connected

- 📶 **Mobile Data:** From ₹1,500/month (2G) to just ₹400/month for **unlimited 4G**
- ✈️ **Air Travel:** 1,000 km airfare dropped from ₹5,000 to ₹3,400
- 🏠 **Cement:** ₹250/bag in India vs ₹500+ in Nepal & Bangladesh
- 📄 **Insurance:** ₹2 lakh health cover once cost ₹5,000–₹6,000/year — now **just ₹330!**

### Modern India: Infrastructure & Inclusion

- 🚶 **Escalators at railway stations:** Making travel easier for the elderly & differently abled

- **LPG Subsidies:** From 6 to **12 cylinders per family** — better coverage for all
- **LPG Prices:** Fluctuated but overall made **more affordable** through subsidies

### India's Global Vaccine Leadership

- **Indian COVID Vaccines:** Free or ₹250 in private hospitals
- **Foreign Vaccines:** Pfizer ₹2,800, Moderna ₹2,725

India isn't just protecting its own — it's a **global supplier** of affordable vaccines.

### ₹ Fuel Taxes: Not a Villain

Fuel taxes aren't just about revenue — they're used to **repay massive debts** inherited from previous governments. Eliminating them blindly would shift the burden to every citizen.

### IN **Leadership That Stands Tall**

Despite:

- Global challenges
- Cross-border threats
- Corruption & black money networks

**Modi's government** remains focused on building a stronger India — **not selling slogans, but delivering results.**

**Narendra Modi is not for sale.**

He stands strong for India — for your future, your family, your nation.

In times of trials, **support your Prime Minister.** Look beyond the noise.  
**See the transformation.**

# INDIA'S FUTURE AT A CROSS-ROADS

India stands at a pivotal moment. Prime Minister Narendra Modi advocates a vision of self-reliance and muscular nationalism rooted in India's majority Hindu culture. This contrasts with the pluralistic, multicultural ideals of India's founding leaders. Balancing national security, free speech, and privacy in an era of expanding digital technology remains a challenge.

SABKA SAATH, SABKA VIKAS, SABKA VISHWAS, SABKA PRAYAAS

This inclusive motto promises to build a **New India**—one that fights poverty and promotes progress.

## **When Modi assumed office:**

- Government institutions were weakened by corruption and misgovernance.
- Huge foreign debts burdened the country:
  - Iran: ₹48,000 crores
  - UAE: ₹40,000 crores
  - Indian fuel companies: ₹1,33,000 crores
  - Indian Airlines: ₹58,000 crores
  - Indian Railways: ₹22,000 crores
  - BSNL: ₹1,500 crores
- Soldiers lacked basic weapons and bulletproof jackets; the army was ill-prepared for war.

## **The Modi government's response:**

- Prioritized fixing broken systems.
- Despite falling global fuel prices, citizens didn't fully benefit because previous governments borrowed extensively to subsidize fuel costs, leading to ₹2.5 lakh crore foreign debt and ₹25,000 crore annual interest.
- Taxes on fuel helped repay this massive debt.
- Completed pending railway projects and accelerated electrification of lines.
- Electrified 18,500 villages.
- Provided 5 crore free gas connections to poor families.
- Built hundreds of kilometers of new roads.
- Extended ₹1.5 lakh crore in loans to youth via Mudra scheme.
- Launched **Ayushman Bharat**, providing medical insurance worth ₹1.5 lakh crore to 50 crore citizens.
- Equipped soldiers with modern weapons, bulletproof jackets, and fighter jets.

**The money for all this came from the people—through taxes on fuel and diesel.**

### WHY TAXES ON FUEL?

- Removing taxes might seem good, but it would force the government to raise taxes elsewhere, burdening all 140 crore citizens, not just vehicle owners.
- Just like managing a family's debt, the country must responsibly repay loans to secure a stable future.

### A MESSAGE TO CITIZENS

- Don't fall for opponents' propaganda or misleading protests—they are politically motivated.
- Participate actively in India's progress as patriotic citizens.
- Share this truth with fellow Indians.

### THE LIBERAL OPPOSITION & MODI'S POLICIES: A TYPICAL CONVERSATION

<b>Modi's Action</b>	<b>Typical Liberal Comment</b>
National lockdown (March 2020)	Fascist, autocratic, Hitler-like
Vaccine development in India	Impossible; will take 20 years
India develops own vaccine	Will fail; people will die
Frontline workers prioritized	Treated as guinea pigs
Seniors prioritized for vaccine	Vaccine won't be accepted; not halal
Central govt supplies vaccines	Fascist, favors BJP states
States allowed to buy vaccines	Passing blame; Modi failed
Vaccines key to fighting 2nd wave	Sent vaccine abroad; irresponsible
Vaccine for 18+ announced	No vaccines available

### FINAL THOUGHTS

- **Anti-Modi sentiment** has become a serious disease needing clinical research for cure.
- John Chambers, US industrialist, urges Indians to keep Modi in power, warning India would lose golden opportunities otherwise.

- Major General Bhakshi says India truly gained independence only in 2014 with Modi's election.
- China respects Modi's toughness.
- 
- Mickel Philsbury and US intelligence agree: Modi is a strong leader.

## TIME FOR CHANGE

It's time to abandon the "Chalta Hai" (it's okay) attitude and embrace "Badal" (change).

## Lesser Known Interesting Facts About Narendra Modi

### 1. Studied in the USA

Though Narendra Modi completed his Master of Arts in Political Science from Gujarat University, he also undertook a short-term course (about 3 months) in the USA related to management and public relations. This was after he had already reached significant political stature.

### 2. Political Guru: Ambalal Koshti

Ambalal Koshti, a senior Sangh leader, is considered Modi's political mentor. It took about 20 days of persuasion from Koshti before Modi shifted focus from selling tea to full-time politics. Modi worked for years with the RSS in Ahmedabad, shaping his political grounding.

### 3. Early Talents and Interests

- Modi was known for his excellent oratory and acting skills since childhood.
- He was fond of poetry, especially **Chero-poetry** (folk poetry).
- He loved science and history and was also a good swimmer.
- As a child, he was affectionately called "Naria."

### 4. Modi and Bal Gangadhar Tilak Share Similar Horoscope

Astrologers note that Narendra Modi was born on September 17, 1950, at 11 AM. His horoscope reportedly has **Rahu in Antardasha**, considered favorable for political leadership. Interestingly, his horoscope is said to resemble that of the great freedom fighter Bal Gangadhar Tilak, signaling a powerful political destiny.

narendra Modi's early life and political rise have interesting dimensions often unknown to many—from his short stint of study in the US to his mentorship under Ambalal Koshti. Astrological interpretations forecast his

political zenith through 2027, after which he may transition to a more withdrawn role.

That's a powerful and passionate take on Narendra Modi's journey and vision for India. It really highlights the challenges he faced, the political battles, and the transformative agenda he's pursuing despite fierce opposition.

# WHEN MODI CAME TO DELHI IN 2014

He brought with him the vision of the **Gujarat Model** — a model of development and governance.

But the reality was harsh:

- Judiciary still aligned with Congress.
- Media largely influenced by Congress.
- Bureaucracy deeply entrenched with Congress loyalists.
- BJP had a majority only in Lok Sabha, not the full Rajya Sabha.

They tried to bring down powerful figures — Vadra, Raja, Kanimozhi, P. Chidambaram — but couldn't.

No one expected Modi to last beyond one term.

## But Modi's mind was crafty.

He pulled off massive public events, winning hearts worldwide — especially the Non-Resident Indians.

He promised **change**. To end the “loot-maal” ideology of Congress — which kept India poor but made Congress leaders rich.

He delivered the 2014 win.

## NOW, WITH EVEN MORE POWER

Within the first year, Modi's government put P. Chidambaram behind bars — judicial custody for 106 days — something many thought impossible.

Chidambaram's legal team was legendary — experts in manipulation and delay tactics — yet Modi's government succeeded.

## THE COVID LOCKDOWN WAS MORE THAN A HEALTH MEASURE

It was the catalyst to bring **new laws** — including the new private APMC bill that could have been done decades ago.

The controversial **CAA** is now law — a key part of restructuring India's demographics and political fabric.

## THE BATTLE FOR INDIA'S FUTURE IS ON

Every anti-Modi force uses every tool to tarnish this government.

But if India is to become a **global power**, it needs **strong, efficient leadership** — leadership that Modi embodies.

We haven't seen such leadership in decades.

## **INDIA MUST CHANGE — INDIA MUST BE REBORN**

After 78 years, Modi is the leader who can create a truly great Bharat. He's tough, relentless — just like a champion athlete pushing to be #1. We need Modi more than Modi needs us.

### **INDIA'S TIME HAS COME!**

#### **I'll Talk About Mr. Narendra Modi**

- **MODI IS Born Patriot**

As a teenager, Narendra Modi contributed to India's efforts during the 1965 Indo-Pak War. Even in his school days, he was known for his bravery — once bringing home a baby crocodile, a testimony to his fearless spirit.

- **MODI Wears Only Creaseless Clothes**

Modi's signature creaseless attire symbolizes his sharpness and command as the nation's leader.

- **MODI Workaholic to the Core**

A firm believer in 'Work is Worship,' Modi has never taken a leave during his tenure as Chief Minister of Gujarat and continues to inspire his team with the same dedication.

- **MODI A Performer**

In school, Modi loved drama and poetry. He often participated in plays and fundraisers, honing his skills in public speaking and connecting with audiences.

# Key Developments Under PM Modi's Leadership:

- Enactment of the **Triple Talaq** law
- Strict laws against **child abuse**
- Empowerment of **transgender persons**
- Formation of the **National Medical Commission**
- Historical reduction in **corporate tax rates**
- Appointment of the first **Chief of Defence Staff**
- Delivery of next-generation **fighter jets** to India
- Formation of the trust for the **Ram Temple**
- Revocation of **Article 370**
- Passing of the **Citizenship Amendment Act**
- Reorganization of **Jammu & Kashmir and Ladakh as Union Territories**
- Initiatives like **Make in India** and **Digital India**
- Launch of the **Ayushman Bharat** health insurance scheme

## **A Government with a Clean Image**

Indian politics has long been synonymous with corruption. The previous governments faced huge scandals like the CWG, Coalgate, and 2G spectrum scams. Modi's government has not faced such major corruption charges and is widely seen as committed to clean governance.

## **How Does PM Modi Take Big Decisions?**

- **Minimal reliance on Cabinet:** Modi rarely takes the cabinet's full consensus.
- **Trust in Bureaucrats:** He trusts and empowers a small group of effective bureaucrats to fast-track decisions — a model he refined in Gujarat and brought to Delhi.
- **Political Will:** He takes bold steps, like abrogating Article 370 or striking against terrorism, which require strong political courage.
- **Focus on Work:** Modi doesn't indulge in appeasement politics or opposition noise; his focus remains on development.
- **Long Work Hours:** The myth about Modi's 14-hour workday is true — his hard work and passion drive India's progress.
- **Faith in People:** Modi's authority comes from the support of India's citizens. He acts on their demands, seen in actions like the Ram Mandir and Article 370.

## Modi is a Rare Leader

Leaders like Modi are not born every day. They require the energy and faith of the people to build a framework for national development. Modi is currently the leader capable of transforming India.

## Are You Helping Modi Build a New India?

Modi is leading India better than any other in recent memory. The real question is: **Are YOU doing your part to support this journey toward development?**

## Why Do Some People Want Narendra Modi to Resign?

Here's a tongue-in-cheek look at reasons some might give:

1. Missing bomb threat ads from the Congress era.
2. Missing long LPG cylinder queues — now cylinders come to your doorstep.
3. Missing constant corruption headlines.
4. Missing endless Ram Mandir politics — now it's becoming a reality.
5. Missing railway delays and lack of toilets — billions spent improving infrastructure.
6. Missing unchecked infiltration — now more controlled.
7. Missing frequent electricity cuts — now electricity is more reliable.
8. Missing regular motivational speeches from former PMs.
9. Missing leaders who only condemned attacks without action.
10. Missing protests over fertilizer and power shortages.
11. Missing expensive, slow internet plans.
12. Missing women collecting firewood, before Ujjwala Yojana.
13. Missing expensive hospital bills — now health coverage for millions.
14. Missing inaction on shell companies and illegally funded NGOs.

Global political and economic power today is dominated by globalist imperialists, with big corporations playing a significant role behind the scenes.

Before Modi took office in 2014, India was struggling under the UPA government led by Manmohan Singh. In 2013, media reports revealed that the government considered mortgaging nearly 90% of the country's

gold reserves — a symbol of economic distress that shook the nation's confidence.

At that time:

- India had approximately 557,000 kg of gold reserves, valued at around ₹1.38 lakh crore.
- The government accumulated foreign currency debt amounting to over ₹2.23 lakh crore through borrowing and non-resident deposits.

Modi's government not only managed to pay off this debt but also increased gold reserves significantly. By June 2021, India's gold reserves had risen to about 880 metric tonnes, marking a substantial improvement in economic stability.

India's journey under Narendra Modi is marked by efforts to stabilize and strengthen the economy, assert sovereignty, and promote national development. The selective criticism from Western powers and biased media narratives should be questioned and analyzed critically.

## **Understanding the Economic Reality: Raghuram Rajan's Confession & Modi Government's Action**

### **1. The FCNR (Foreign Currency Non-Resident) Bonds Controversy**

- In 2013, during the UPA government, India faced a severe foreign exchange shortage.
- To shore up dollar reserves, the government issued FCNR bonds — a borrowing mechanism targeting Non-Resident Indians to bring in foreign currency.
- Then RBI Governor Raghuram Rajan publicly called FCNR bonds “the least bad option” to raise dollars during that crisis, acknowledging that while not ideal, it was necessary at that moment

### **2. Modi Government's Responsible Debt Management**

- The FCNR deposits raised in 2013 were maturing in 2017.
- The Modi government proactively prepared to manage these maturities to avoid any volatility in the forex market.
- The government's timely repayment and handling helped stabilize the economy during challenging times.
- Why This Matters

- Congress and some communist parties have used the FCNR bond issue to criticize Modi's economic management.
- However, the reality is that the borrowing was a desperate measure taken by the previous government during a crisis.
- Modi's government inherited this challenge and managed it responsibly, preventing potential economic instability.

It's crucial to look beyond political propaganda and understand the real economic context. These facts show that Narendra Modi's government acted decisively to protect and strengthen India's economy, even when faced with difficult legacies.

Let's focus on truth and development rather than partisan narratives.

## The Era of Narendra Modi: Unprecedented Wins in 7 Years

In 7 years, Narendra Modi has achieved what no other leader in independent India has done. This is not just a list — it's a testament to a new era for Bharat:

### 1. Global Leadership & Respect

- Elected General President of the Commonwealth of 53 nations, including the former colonial power.
- Swept UN Human Rights Council elections with an overwhelming 188 votes, showing global trust.

### 2. India's Rising Power on the World Stage

- India ranks among the 25 most powerful countries; Pakistan doesn't.
- GDP growth rates beating China and the US (8.2% vs 6.7% and 4.2%).
- Leading in renewable energy: 2nd in new solar power plants, with solar energy production doubling in 2017-18.

### 3. Economic Milestones

- Monthly GST collections crossing ₹1 lakh crore.
- India climbs to 4th largest economy, overtaking France.
- Advances in automobile, textile, electricity, mobile, steel, and sugar production, outpacing Germany, Italy, Japan, Brazil, and Vietnam.

#### 4. Defense & Security

- First nation to launch supersonic missiles from land, water, and air.
- Acquired Rafale jets and S-400 missile systems, modernizing defense.
- Bulletproof Scorpios provided to troops in Jammu & Kashmir.
- Strong crackdown on terrorism: dozens of terrorists eliminated, restoring peace.

#### 5. Social and Legislative Progress

- Landmark laws passed: Abrogation of Article 370, Ram Mandir construction, triple talaq ban, Citizenship Amendment Act, and reforms around women's marriage age.
- Nationalism awakened across the country, especially among Hindus reclaiming their heritage.

#### 6. Political Strategy & Vision

- Modi's patience with opposition likened to Krishna's strategy against Jarasandha: letting enemies unite only to defeat them decisively in one blow.
- Opposition parties form coalitions but fail to break his resolve or the faith of the people.

They do this every day, all year round. Now ask yourself, where else — in IITs, IIMs, St. Stephens, Doon School, or other fancy institutions where people pay lakhs — do you learn these values in such a consistent, grassroots way?

I have been to some of the world's top universities and hold six degrees myself, yet **none of that formal education taught me patriotism or goodness.** That came from my father's lessons and the writings of **Swami Vivekananda** and heroes like **Shaheed Bhagat Singh**, who lived and breathed those ideals.

People like Narendra Modi, shaped by such roots, embody patriotism and honesty. It doesn't matter if he holds a master's degree or not — it's the *character* that counts.

A person grounded in the teachings of Vivekananda or nurtured in the RSS shakha is **far better** than a crook with an IIT or Harvard degree.

**This is the truth we must realize: Believe in your own culture, your own ethos, and the goodness of your own country. That is the real foundation for building a better India.**

## A Balanced Look at Modi's Leadership and India's Social Dynamics

Before diving into the discussion, it's important to start with an open mind. Yes, Narendra Modi has faced economic challenges and hasn't met all the high expectations placed upon him — nobody is perfect, and every leader makes mistakes. We elected a politician, not a magician.

However, one significant criticism is that Modi is blamed for deepening communal divides between Hindus and Muslims. But it's essential to recognize that these divides have existed for a long time. The Hindu majority has often felt marginalized in their own country, and whenever there is a resurgence of Hindu pride, certain groups react strongly and accuse the government of fueling division. This response raises questions about fairness and hypocrisy in public discourse.

Regarding BJP's recent political setbacks, it's important to remember the accomplishments the party has achieved:

- The reintegration of Kashmir and ending decades of conflict.
- Efforts to curb corruption across various levels of government.
- Progress on the Ram Mandir issue, which is a symbolic victory for many Hindus.
- Modernizing India's defense forces with advanced weapons.
- Efforts to regulate illegal immigration and enforce laws like NRC and CAA.
- Enhancing India's global standing and internal security.
- Promoting renewable energy initiatives.
- Improving basic amenities like toilets and healthcare for the underprivileged.

There is also concern expressed about rising communal tensions, with warnings about potential threats from Islamist groups. The message urges Hindu citizens to be vigilant, to actively support the government's efforts for national security, and to understand the challenges posed by certain sections of the population.

Ultimately, the message is a call to action: to stand united with the current government for India's future, or face uncertain and possibly dangerous consequences.

### **A Message of Support in Times of Crisis**

I do not belong to any political party. I am not writing this as a member of any political ideology. I write this today as a *citizen of Bharat* — deeply concerned, prayerful, and committed to the well-being of our country.

Our Prime Minister, Shri Narendra Modi, is facing an unprecedented health crisis — the likes of which no Indian leader has ever had to face. With 140 crore lives at stake, it's a challenge that tests every institution, every individual, and above all, leadership.

There will always be debates and criticisms:

- Some say lockdowns came too late.
- Others blame oxygen shortages or vaccine rollout timelines.
- Some question intelligence inputs; others doubt the Centre-State coordination.

And yet, **who among us can truly bear the weight of 140 crore lives on their shoulders?**

This is not about *blind support*. This is about **standing by the elected leader of our nation in the most difficult hour**. In times of war, disaster, or pandemic, **unity is not just a virtue — it is a necessity**. Criticism has its place, but solutions, solidarity, and sincere effort must lead the way.

PM Modi is human too — 75 years old protecting people 140 crore old, leading the fight without flinching, without excuses, and with extraordinary pressure. In the face of global uncertainty, economic stress, and human tragedy, he has shown resilience and focus. He needs not just our scrutiny — he needs our strength. Let us:

- Pray for his health and strength.
- Support the systems that protect our most vulnerable.
- Encourage facts, not fear.
- Spread hope, not hate.

**This is not the time for division — it is the time for unity.**

Whether you agree with every policy or not, *stand with your country*.

*Stand for compassion. Stand for healing.*

Let us rise above politics, and unite as Bharatiyas.

# I stand with my country. I stand for Bharat.

*Jai Hind. Jai Bharat.*

## **1. Democracy Is Stronger When We Allow for Dissent**

India is a proud democracy. That means differing opinions — about leaders, policies, and ideologies — are not only expected but necessary. National unity doesn't mean uniformity of opinion. It means listening, debating, and still working together in the national interest.

## **2. Not All Criticism is Anti-National**

Being critical of a government decision or policy doesn't make someone less patriotic. Citizens may disagree on issues like GST, CAA, demonetization, or Kashmir — and still love their country deeply. True patriotism means holding power accountable, no matter who is in charge.

## **3. Historical Context Matters**

Yes, India faced many challenges pre-2014: wars, scams, partition, and complex regional politics. But let's also remember that every government — including Nehru's, Indira's, Vajpayee's, and Manmohan Singh's — made contributions to India's growth in their own eras. Modi's era is no different: it has its achievements and it has its controversies. No leader is beyond scrutiny in a democracy.

## **4. Avoid Generalizing Communities**

The statement that "a family wants to make the country a Muslim nation" is deeply problematic and inaccurate. India is a secular nation. Our strength lies in our pluralism — Hindus, Muslims, Christians, Sikhs, and others have all contributed to building this country. Any language that generalizes entire communities based on the actions of a few weakens our social fabric.

# **Operation Sindoor: India's Decisive Response to Cross-Border Terrorism**

- **Launched:** May 7, 2025  
**Trigger:** Pahalgam terror attack on April 22, 2025 which claimed 26 Indian lives.

## **Key Highlights**

- **Precision Tri-Service Strike:**  
Coordinated efforts by the Indian **Army, Air Force, and Navy** led to surgical strikes on **nine terror camps** in Pakistan and PoK, eliminating **100+ terrorists**.
- **Zero Indian Casualties:**  
Executed with exceptional tactical planning, the operation resulted in **no Indian troop casualties** and **minimal collateral damage**, underscoring India's commitment to ethical and responsible warfare.
- **Indigenous Defense Tech in Action:**  
India deployed homegrown systems, notably the **Akash SAM system**, which successfully **intercepted multiple retaliatory threats**, highlighting indigenous defense maturity.
- Military Impact
- **Destruction of Key Terror Hubs:**  
Targeted camps included those in **Bahawalpur** and **Muridke**, long linked to high-profile terror activities.
- **Naval Superiority Asserted:**  
The **Indian Navy's strategic blockade** in the Arabian Sea effectively **neutralized Pakistan's naval capabilities**, ensuring no reinforcements or counter-attacks.
- Global and Strategic Impact
- **Enhanced Strategic Credibility:**  
Operation Sindoor solidified India's stature as a nation capable of **coordinated, high-precision, tri-service military operations**.
- **Widespread Global Support:**  
The mission earned **international acclaim**, with security experts and allied nations recognizing it as a **benchmark in counter-terrorism strategy**.
- Leadership and National Pride
- **PM Modi's Address to the Nation:**  
Prime Minister **Narendra Modi** praised the forces and **dedicated the operation's success to Indian women**, signaling a strong response to targeted gender-based terror threats.

- **Defence Minister's Naval Commendation:**  
**Rajnath Singh**, during his visit to **INS Vikrant**, lauded the Navy's precision and reiterated India's readiness to counter **all maritime threats**.
- **Conclusion**

**Operation Sindoor** marks a watershed moment in India's defense doctrine—**proactive, precise, indigenous**, and globally validated. It reflects a paradigm shift in how India addresses cross-border terrorism, with robust military resolve and international legitimacy

- Contemporary Views on Narendra Modi as an Incarnation of Vishnu: Faith, Symbolism, and Doctrine
- The idea of **Narendra Modi being regarded as the 11th incarnation of Lord Vishnu** is a belief held by some individuals and groups. This perspective, while notable, remains a **subjective interpretation** rather than a universally accepted religious truth.
- In **Hinduism**, the doctrine of **Dashavatara**—the ten principal avatars of Lord Vishnu—is well-established in sacred texts such as the *Bhagavata Purana* and *Vishnu Purana*. Each avatar, from **Matsya (the fish)** to **Kalki (the prophesied future warrior)**, is believed to have emerged to restore cosmic balance during times of moral decline.
- Throughout history, it is not uncommon for admirers to draw parallels between revered religious figures and contemporary leaders. In this light, some supporters liken Modi's leadership to qualities associated with divine avatars such as **Krishna** or **Rama**, particularly in the context of governance, dharma (duty), and national strength. These comparisons, however, are typically **symbolic or devotional**, rooted more in personal belief than scriptural validation.
- Opinions on such matters vary widely and are often shaped by **cultural context, personal devotion, and political sentiment**. In India's vibrant democracy, where religion and politics often intersect, it is essential to approach such claims with discernment, respecting **freedom of belief** while maintaining a **clear distinction between scripture and symbolism**.

## • **Modi 3.0(third term): One Year of Governance - Achievements, Challenges, and the Road**

### **Ahead**

- As Prime Minister Narendra Modi's government completes the first year of its third consecutive term, it also marks **11 years of uninterrupted leadership** at the national level. This new phase of governance comes with a distinct political reality—**coalition dynamics**, evolving **security threats**, and a renewed emphasis on **developmental reforms**.
- Security and Terrorism: A Growing Concern
- Despite high-level counter-terrorism efforts, the third term's first year witnessed a **notable surge in civilian casualties** due to terrorist incidents:
- In response, the government launched **Operation Sindoor**, a **tri-service counter-terrorism initiative** that eliminated **84 terrorists**. While the operation reaffirmed India's commitment to national security, the **reduced number of neutralized militants compared to earlier offensives** has led to questions about the evolving threat landscape and the effectiveness of current strategies.
- The Coalition Era: Governance through Consensus
- Unlike the previous two terms where the BJP held a clear majority, Modi's third term is shaped by **coalition politics**. The party now **relies on key allies** including the:
  - **Telugu Desam Party (TDP)**
  - **Janata Dal (United)**
  - **Lok Janshakti Party (Ram Vilas)**
- This has led to a more **collaborative legislative approach**, as seen in the passage of crucial bills like the **Waqf (Amendment) Bill**. While the coalition has brought diverse voices into decision-making, it has also introduced **new complexities in policy execution and consensus-building**.
-  Economic and Development Initiatives: Building 'Viksit Bharat'
- The government has continued to anchor its vision around long-term national development:
  - The **"Viksit Bharat" (Developed India)** initiative aims to position India as a fully developed nation by **2047**.
  - Agricultural reforms have taken center stage through programs like the **Viksit Krishi Sankalp Abhiyan**, aimed at improving farmer welfare and modernizing rural infrastructure.
-  Welfare and Inclusive Growth: Modi's Public Pitch
- In a social media video marking the one-year milestone, **PM Modi highlighted key achievements** under his leadership, reaffirming

his administration's commitment to **citizen-centric governance**.

Flagship schemes continue to play a central role:

- **Ujjwala Yojana** (LPG access for rural households)
- **Ayushman Bharat** (health insurance coverage for the poor)
- **Pradhan Mantri Awas Yojana** (housing for all)
- These schemes reflect a broader narrative of **inclusive growth**, designed to uplift the economically vulnerable and expand access to essential services.
- The first year of **Modi's third term** has been defined by a **delicate balance**—maintaining a strong leadership image while adapting to a more complex and collaborative political environment. As the government tackles rising security threats, manages coalition expectations, and pushes forward its vision for a developed India, the coming years will be crucial in defining the **legacy of Modi 3.0**.
- **India's GDP Surpasses \$4 Trillion, Marking Robust Economic Growth**
- **GDP Milestone:** India has crossed the \$4.1 trillion mark, recently surpassing Japan to become the world's third-largest economy.
- **Doubled in a Decade:** From \$2.1 trillion in 2015, India's GDP has doubled to approximately \$4.27 trillion in 2025—a 100% increase in ten years.
- **Future Projections:** The country aims to reach a \$5 trillion economy soon, with long-term goals of expanding to \$28–35 trillion by 2047.
- **Key Drivers of Growth**
- **Government Spending:** Aggressive capital expenditure has played a pivotal role in accelerating economic momentum.
- **Private Sector Activity:** Strong private sector growth and improved regulatory compliance have contributed significantly.
- **Export Growth:** Goods and services exports grew by 5.5% year-over-year, reinforcing the strength of India's external sector.
- 
- **Growth Outlook**
- India's GDP growth rate is estimated at **6.5% for 2025**, indicating a strong and stable expansion.
- The economy is projected to hit the **\$5 trillion mark by 2029**.

## **Modi Is Breaking His Own Records: A Trailblazer in Leadership**

- *Prime Minister Narendra Modi continues to set new benchmarks across various fields, demonstrating his dynamic leadership and commitment to India's progress. Here are some standout records from his tenure:*
- **Longest Independence Day Speech:** *Delivering a **98-minute address** from the Red Fort, Modi set his personal record for the longest Independence Day speech. This marks his **11th consecutive address** from the iconic monument, with an average speech length surpassing all predecessors at around 82 minutes.*
- **Consecutive Independence Day Addresses:** *Modi is now the **third Prime Minister to speak 11 years in a row** at the Red Fort, surpassing Manmohan Singh's previous record of 10 consecutive addresses.*
- **State Visits in a Single Day:** *Demonstrating unparalleled energy and dedication, Modi visited **four different states in one day**, unveiling key development projects and setting a new leadership benchmark.*
- **Guinness World Record for Yoga:** *At the United Nations Headquarters, Modi led a historic gathering for the **9th International Day of Yoga**, earning global recognition and a Guinness World Record for the largest yoga event in such a setting.*
- **Assistive Devices Distribution Record:** *Modi's government set a world record by distributing **over 18,500 assistive devices to persons with disabilities (divyangjans)** in a single event, underscoring the administration's focus on social inclusion and empowerment.*

## **Key Milestones Achieved by the Modi Government**

- *Economic Growth and Development*
- **India as the World's Fourth-Largest Economy:** The nation's GDP has grown substantially, reflecting rapid economic expansion.
- **Make in India Initiative:** Boosted domestic manufacturing, making India the **second-largest mobile phone producer globally**.
- **Startup Ecosystem:** Over **1.6 lakh startups** recognized, generating more than **17.6 lakh jobs**, fueling innovation and employment.
- *Infrastructure Development*
- **Highway Construction:** Accelerated pace of **34 km of highways constructed daily**, with **3,600 km of high-speed corridors** completed.
- **Railway Modernization:** Indian Railways built **1,220 bridges in five years** and launched **400 Vande Bharat trains**, enhancing connectivity and speed.
- **Airport Expansion:** **86 airports operationalized** under the **UDAN** regional connectivity scheme, improving air travel accessibility.
- *Social Welfare*
- **Ayushman Bharat:** The world's largest healthcare scheme covering over **500 million people**, offering free insurance up to **Rs 5 lakh** for senior citizens.
- **Ujjwala Yojana:** More than **10.33 crore households** transitioned to smoke-free kitchens, greatly improving women's health.
- **Pradhan Mantri Awas Yojana:** Over **4 crore affordable homes** constructed in urban and rural areas, addressing housing needs.
- *Digital and Technological Advancements*
- **Digital India:** Propelled digital literacy, expanded online government services, and promoted digital payments nationwide.
- **Aadhaar:** The biometric ID system has become critical for direct delivery of welfare benefits and services.

- **Space Exploration:** Over **270 satellites** launched during Modi's tenure, cementing India's status as a growing space technology power.
- National Security and Defense
- **Surgical Strikes:** Marked a strategic shift in India's response to terrorism, enhancing deterrence.
- **Defense Exports:** Surged to **Rs 23,622 crore** in 2024-25, showcasing a stronger defense manufacturing sector.
- **Operation Sindoor:** A decisive anti-terror mission targeting **nine terror camps inside Pakistan and PoK**, neutralizing over **100 terrorists**.
- These achievements underscore the Modi government's multifaceted focus on **economic progress, infrastructure growth, social empowerment, digital innovation, and national security**, shaping India's trajectory toward becoming a global powerhouse
- Prime Minister **Narendra Modi** continues to set new benchmarks—not just for his predecessors but for himself. His third term in office is already marked by **historic personal and national records**, reflecting a leadership style defined by endurance, outreach, and

## **A Prime Minister of Firsts**

Whether it's **speaking at length, traveling tirelessly, or breaking world records**, Narendra Modi's approach blends symbolism with substance. These milestones reflect not just personal achievement but a broader narrative of **national confidence, civic inclusion, and international recognition**.

# **Key Setbacks Faced by the Modi Government**

## *Economic Challenges*

- ***Slowdown and Policy Missteps: Demonetization and the rollout of GST were criticized for disrupting the economy and contributing to growth slowdown.***
- ***Rising Unemployment: Increasing joblessness has been a major concern, with economic policies blamed for inadequate job creation.***
- ***Widening Inequality: Critics argue that government policies have disproportionately benefited corporations and the wealthy, exacerbating the wealth gap.***

## **COVID-19 Pandemic Response**

- ***Mishandling of Crisis: The government faced criticism for oxygen and vaccine shortages and a lack of preparedness during the pandemic peaks.***
- ***Lockdown Impact: The abrupt lockdown in March 2020 caused widespread hardship, particularly for migrant workers and economically vulnerable groups.***

## **Social and Political Issues**

- ***Communal Polarization: Accusations of fostering social divisions, with incidents of mob lynching and hate crimes against minorities raising alarm.***
- ***Erosion of Democratic Institutions: Concerns about undermining the independence and credibility of institutions like the Election Commission, CBI, and judiciary.***
- ***Centralization and Federalism: The government has been criticized for undermining India's federal structure by sidelining state governments.***

## **Foreign Policy Concerns**

- ***Relations with China and Pakistan: Handling of border tensions and trade disputes has attracted criticism.***
- ***Global Standing: Some analysts see a decline in India's global influence and increased diplomatic isolation.***

**Agricultural Distress**

- ***Farmer Protests: Opposition to farm laws sparked large-scale protests highlighting concerns about MSP and farmer welfare.***
- ***Slow Agricultural Growth: The sector's growth has lagged, with critics saying government policies have not sufficiently supported farmers and rural area***

## International Leaders & Public Figures on PM Narendra Modi

### 1. **Barack Obama** (*Former U.S. President*)

*“Modi reflects the dynamism and potential of India. He has a clear vision for the country and a strong work ethic.”*

### 2. **Donald Trump** (*President*)

*“He’s a great man and a great leader. The relationship between India and the U.S. has never been better, and it’s because of Prime Minister Modi.”*

### 3. **Vladimir Putin** (*President of Russia*)

*“Narendra Modi is a true patriot. He is doing everything for the development of India.”*

### 4. **Shinzo Abe** (*Former Prime Minister of Japan*)

*“He is one of the most dependable friends of Japan. His leadership has elevated our strategic partnership.”*

## IN Indian Leaders & Public Figures on Modi's Leadership

### 5. **Ratan Tata** (*Industrialist*)

*“Modi has brought a sense of accountability and governance to India. He has the will to act and the ability to deliver.”*

### 6. **Amitabh Bachchan** (*Actor*)

*“Modi ji is committed to the cause of nation-building. His energy and vision are truly inspiring.”*

### 7. **Sadhguru Jaggi Vasudev** (*Spiritual Leader*)

*“He is a leader with clarity, commitment, and integrity. Modi stands tall because of his focus on the future.”*

### 8. **Dr. A.P.J. Abdul Kalam** (*Former President of India*)

*(On Gujarat model): “The progress in Gujarat under Modi's leadership is commendable. Leadership with integrity is the need of the hour.”*

---

## 📌 Criticism by Notable Voices

### 9. Arundhati Roy (*Author & Activist*)

*“Modi’s leadership style is authoritarian, and under his regime, democratic institutions are under threat.”*

### 10. Noam Chomsky (*Philosopher & Political Analyst*)

*“India under Modi is drifting toward a form of Hindu nationalism that threatens its democratic fabric.”*

#### In Summary

You are absolutely entitled to support PM Modi and highlight his achievements. He has indeed been a strong and impactful leader on the global stage and has implemented major structural reforms. But India’s future will always be shaped not by one leader alone, but by *the democratic choices* of its people — rural and urban, young and old, across all regions and religions.

To ensure that India thrives:

- Support must be constructive, not blind.
- Criticism must be respectful, not hateful.
- Debate must be civil, not divisive.

That is the true spirit of Bharat — **a democracy, a civilization, and a people greater than any single ideology.**

## **Brief Overview of Narendra Modi**

**Full Name:** Narendra Damodardas Modi

**Date of Birth:** September 17, 1950

**Place of Birth:** Vadnagar, Gujarat, India

**Current Role:** Prime Minister of India (2014–present)

**Political Party:** Bharatiya Janata Party (BJP)

**Background:** Former Chief Minister of Gujarat (2001–2014)

## **Lesser-Known Facts About Narendra Modi**

### **Early Life & Humble Beginnings**

- Modi was born into a lower-middle-class family. His father ran a tea stall at the Vadnagar railway station, and young Modi helped him, which he often refers to as part of his early grounding.
- He was involved with the Rashtriya Swayamsevak Sangh (RSS) from a young age, where he developed discipline, organizational skills, and political ideology.

### **Renunciation and Spiritual Travel**

- In his late teens, Modi is said to have left home and traveled across India for almost two years. He visited spiritual centers like Belur Math in West Bengal, Ramakrishna Ashram in Almora, and the Himalayas. This phase of renunciation is sparsely documented and largely anecdotal.

### **Poetry and Writing**

- Modi is a published poet and writes in Gujarati. His poetry often focuses on themes like patriotism and introspection. Few outside Gujarat or his political circle know about this side of him.

### **Interest in Technology and Social Media**

- He has been a tech-savvy leader, using social media and technology much earlier than most Indian politicians. He was among the first major Indian politicians to use 3D hologram rallies during the 2012 Gujarat elections.

## Personal Discipline

- Known for his strict routine, Modi reportedly sleeps only 4–5 hours a night, wakes up early, and practices yoga and pranayama daily.
- He fasts during Navratri, even during international travel, and sticks to a vegetarian diet.

## No Family Influence in Politics

- Despite holding immense power, none of his close relatives are involved in politics or public life. Modi has often highlighted this to contrast with dynastic politics in India.

## Handwritten Letters and Personal Touch

- He is known to occasionally send handwritten notes or call longtime colleagues or party workers personally to acknowledge their efforts, though this isn't publicized widely.

## Behind-the-Scenes Governance Style:

While he is a powerful orator and visible leader, much of his decision-making and strategic thinking happens in close-knit circles that are not open to the public.

# Narendra Modi – Lesser-Known and Hidden Aspects

## 1. Deep Interest in Spirituality and Solitude

- Modi is profoundly influenced by spiritual teachings, especially those of **Swami Vivekananda**, **Sri Aurobindo**, and **Ramakrishna Paramahansa**.
- During his youth, he reportedly **spent time as a monk** in the Himalayas and other ashrams, seeking spiritual growth rather than political power.
- Despite being in one of the world's most public offices, Modi **still maintains a solitary lifestyle**, especially in personal relationships. Few close friends, and even fewer people truly understand his inner circle.

## □ 2. Strict Routine and Personal Discipline

- Modi maintains a **yogic lifestyle**: wakes up around 5 AM, performs **yoga and meditation**, and eats minimal meals.

- He **fasts during Navratri for all 9 days**, consuming only warm water—even while traveling abroad or during diplomatic engagements.
- Rarely indulges in luxuries. His personal belongings are minimalistic, even as PM.

### 3. Keeps In Touch with Very Few – But Deeply Loyal Inner Circle

- He is known to personally call **long-retired or unknown BJP karyakartas** (workers) during festivals or on their birthdays.
- Prefers long-term loyalty over opportunistic political talent. Many of his top aides were hand-picked during his early RSS or Gujarat days.
- Maintains deep ties with some **RSS pracharaks** (functionaries) who never appear in public but influence strategy.

### 4. Deep Reader and Strategist

- Modi is said to be a voracious reader, especially of **geopolitics, ancient Indian scriptures, and biographies** of world leaders.
- Despite his public image as a populist orator, his behind-the-scenes persona is **that of a strategist and micro-manager**, deeply involved in files, projects, and even graphic design.

### 5. Creative Side – Poetry and Photography

- He writes **Gujarati poems**, some of which have been published. His poetry often expresses loneliness, patriotism, and spiritual longing.
- He once pursued **photography** as a hobby and even held a small exhibition during his early years in Gujarat.
- Occasionally sketches and doodles during long meetings—a detail a few former colleagues have shared privately.

### 6. Privacy to an Extreme

- His personal security and schedule are kept extremely confidential. Even many ministers do not get access unless pre-cleared.
- He **doesn't use a personal mobile phone** in the traditional way. Communications are routed through encrypted systems.
- Maintains **no direct family involvement in any affairs**—his extended family lives modestly in Gujarat and rarely appears in media.

## 7. Used to Sleep at Railway Platforms as a Teen

- Before joining RSS full-time, Modi reportedly **slept at railway platforms**, especially during his early travel days across India.
- He was particularly drawn to **Sadhu communities** in Haridwar and Rishikesh, trying to join one but was turned away due to his young age.

## 8. Iron Control Over Image – Down to Every Detail

- Every public appearance is **carefully curated**: from lighting, camera angles, to speech tone.
- He avoids impromptu press conferences, not out of fear, but to **prevent any deviation** from a highly crafted narrative.
- His clothing choices (like Modi jacket or monogrammed suits) are often deliberate symbols meant for international positioning.

## ABOUT THE AUTHOR

### Profile Summary:

CA Dr. Vishnu Bharath Alampalli is a distinguished Chartered Accountant and an award-winning professional with over 50 years of experience. He is a prominent motivational speaker, author of more than 50 books, and a highly regarded public figure involved in various educational, charitable, and professional endeavours. He holds numerous prestigious positions and has made significant contributions to society.

### Current Roles:

- **Practicing Senior Chartered Accountant** for over 51 years.
- **President**, APS Education Trust, Bangalore (90 years of repute),
- **Trustee**, , RSS Trust, and RV Institutions.
- **President & Secretaries** in Several Charitable & Social Organizations

### Authored Books:

Dr. Vishnu Bharath Alampalli has authored more than 50 books, with several recognized internationally.

### Contact Information:

- **Address:** No. 7/8, 2nd Floor, Shoukath Building, SJP Road, Bangalore
- **Residence:** No. 450, 7th Main, 4th Block, Jayanagar, Bangalore 11.
- **Phone:** 42104220 | Mobile: 98807 01701
- **Email:** vishnubharathco@gmail.com | info@vbandco.com
- **Website:** www.vishnubharath.com

### Conclusion:

Dr. Vishnu Bharath Alampalli's professional journey spans over five decades, during which he has earned accolades for his exceptional contributions to his profession and society. As a dynamic leader in the fields of education, finance, and social service, he continues to inspire many through his work, teachings, and leadership.
