

PREFACE:

Is God real or just an outdated concept? Who is God? Do we need God or can we get along fine without him? These were some of my questions about God before I came to faith. This book provides answers to questions about God, evidence of God's existence, His care and love for mankind, and His provision for joyful living both now and into eternity. Every thing happens with logic and therefore you are lost and you do not know whether it was fated or happens with god's grace.

One is born into a Royal family and another is born to a beggar and the interesting thing is that how fortune might change during his life time. There are examples that the one born to beggar will prosper and the wealthy one lose everything.

I have learnt that there is evidence of God from Science, but the shape, size, gender, color, human or otherwise, form is not known. From secret scriptures like Bagavathgeetha, Bible & Kuran which are eternal one will know the presence of god and his expectation from human kind. God does not force us to believe in him, though he could. Instead, he has provided sufficient proof of his existence for us to willingly respond to him. The earth's perfect distance from the sun, the unique chemical properties of water, the human brain, DNA, the number of people who attest to knowing God, the gnawing in our hearts and minds to determine.

As this is 16th book of mine, I thought it most appropriate to dedicate it to Almighty. I am a strong believer of God and certain events have occurred in my life which would not have happened but for his grace. I strongly appeal to my readers to share this book with all your contacts, family and friends and discuss in length and if you have experienced anything interesting share the same with me and my email id is vishnubharathco@gmail.com.

Dr. CA Vishnu Bharath AS.

ALMIGHTY:

God is the **supreme being** and principal object of **faith**.

God is the creator and sustainer of the universe.

Four steps of life full of bliss, fulfillment, abundance and enrichment.

First look back and thank God,

second look forward and trust God,

third believe God,

fourth look within yourself and find God.

Some feel that God is the creator (but not the sustainer) of the universe.

Some others feel, God is the universe itself.

Common among these are **omni science** (infinite knowledge),

omni potence (unlimited power),

omni presence(present everywhere),

omni benevolence (perfect goodness), **divine simplicity**, and eternal and necessary existence.

Monotheism is the belief in the existence of one God or in the oneness of God. God has also been conceived as being **incorporeal** (immaterial),

Modern thinkers have developed arguments for and against the **existence of God**.

There are many **names for God**, and different names are attached to different cultural ideas about who God is and what attributes he possesses.

Arguments have been proposed in attempt to prove the existence of God. Some of the most notable arguments are the **5 Ways**.

There are many philosophical issues concerning the existence of God. Some definitions of God are nonspecific, while others can be self-contradictory. Arguments for the existence of God typically include metaphysical, empirical, inductive, and subjective types, while others revolve around perceived holes in evolutionary theory and order and complexity in the [world](#).

Arguments against the existence of God:

Typically include practical, deductive, and inductive types.

"God does not exist"

"God almost certainly does not exist"

"no one knows whether God exists"

"God exists, but this cannot be proven or disproven"

"God exists and this can be proven" There are numerous variations on these positions.

* All of us are afraid of so many things in life, specially:

1. Fear of sickness and ill health.
2. Fear of Evil spirits.
3. Fear of Evil eye
4. Fear of life's uncertainties.

God can take care of all your fears, as he is all Powerful, Merciful and more than all Compassionate.

* "The Sun causes the lotus to bloom.

The Moon on its own makes the lily bloom.

The Cloud too, without being asked, gives water.

Great Souls are always taking the initiative to do good for others."

* Blessed is the person who understands that the reason for praying is not only to get what we want but to accept what god has given us.

* **No one has travelled the road of success**

Without crossing streets of failure.

God never promised easy journeys in life.

He only promised Great Destinations

DOES GOD EXIST?

WHETHER DOES GOD EXIST:

A young man who went overseas to study for quite a long time.

When he returned, he asked his parents to find him a religious scholar or any expert who could answer his 3 Questions.

Finally, his parents were able to find a scholar.

Young man: Who are you? Can you answer my questions?

Scholar: I am one of God willing; I will be able to answer your questions.

Young man: Are you sure? A lot of Professors and experts were not able to answer my questions.

Scholar: I will try my best, with the help of God .

Young Man: I have 3 questions:

1. Does God exist? If so, show me His shape.
2. What is fate?
3. If Devil was created from the fire, why at the end he will be thrown to hell that is also created from fire. It certainly will not hurt him at all, since Devil and the hell were created from fire. Did God not think of it this far?

Suddenly, the Scholar slapped the young man's face very hard. Young Man(feeling pain): Why do you get angry at me?

Scholar: I am not angry. The slap is my answer to your three questions.
Young Man: I really don't understand.

Scholar: How do you feel after I slapped you?
Young Man: Of course, I felt the pain.

Scholar: So do you believe that pain exists?
Young Man: Yes.

Scholar: Show me the shape of the pain!
Young Man: I cannot.

Scholar: That is my first answer. All of us feel God's existence without being able to see His shape... Last night, did you dream that you will be slapped by me?
Young Man: No.

Scholar: Did you ever think that you will get a slap from me, today?
Young Man: No.

Scholar: That is fate my second answer...My hand that I used to slap you, what is it created from?
Young Man: It is created from flesh.

Scholar: How about your face, what is it created from?
Young Man: Flesh.

Scholar: How do you feel after I slapped you?
Young Man: In pain.

Scholar: That's it... this is my third answer,
Even though Devil and also the hell were created from the fire,

if God wants, if God willing , the hell will become a very painful place for devil.

WHERE IS GOD?

Two little boys, aged 8 and 10, are excessively mischievous. They are always getting into trouble and their parents know all about it. If any mischief occurs in their town, the two boys are probably involved.

The boys' mother heard that a preacher in town had been successful in disciplining children, so she asked if he would speak with her boys. The preacher agreed, but he asked to see them individually. So the mother sent the 8 year old first, in the morning, with the older boy to see the preacher in the afternoon.

The preacher, a huge man with a booming voice, sat the younger boy down and asked him sternly,

“Do you know where God is, son?”

The boy's mouth dropped open, but he made no response, sitting there wide-eyed with his mouth hanging open. So the preacher repeated the question in an even sterner tone,

“Where is God?!”

Again, the boy made no attempt to answer. The preacher raised his voice even more and shook his finger in the boy's face and bellowed, “Where is God?!”

The boy screamed and bolted from the room, ran directly home and dove into his closet, slamming the door behind him.

When his older brother found him in the closet he asked, “What happened?”

The younger brother, gasping for breath, replied, “Boss we are in BIG trouble this time.”

("I just LOVE reading next line again and again")

"GOD is missing, and they think we did it!"

Evidence of God from Science:

An professor of philosophy speaks to his STUDENT on the problem science has with God, The Almighty.

This is a true story, and the student was none other than..... .Swami vivekananda.

He asks one of his new students to stand and.....

Prof: So you believe in God? Student: Absolutely, sir.

Prof : Is God good? Student: Sure.

Prof: Is God all-powerful? Student: Yes.

Prof: My brother died of cancer even though he prayed to God to heal him. Most of us would attempt to help others who are ill. But God didn't. How is this God good then? Hmm? (Student is silent.)

Prof:You can't answer, can you? Let's start again, young fella. Is God good?

Student:Yes. Prof:Is Satan good?

Student: No. Prof:Where does Satan come from?

Student:From...God.. .

Prof: That's right. Tell me son, is there evil in this world? Student:Yes.

Prof:Evil is everywhere, isn't it? And God did make everything. Correct?

Student: Yes. Prof:So who created evil?

(Student does not answer.)

Prof:Is there sickness? Immorality? Hatred? Ugliness? All these terrible things exist in the world, don't they? Student:Yes, sir.

Prof:So, who created them? (Student has no answer.)

Prof:Science says you have 5 senses you use to identify and observe the world around you.

Tell me, son...Have you ever seen God? Student:No, sir.

Prof: Tell us if you have ever heard your God? Student:No, sir.

Prof:Have you ever felt your God, tasted your God, smelt your God? Have you ever had any sensory perception of God for that matter?

Student: No, sir. I'm afraid I haven't.

Prof: Yet you still believe in Him? Student: Yes.

Prof: According to empirical, testable, demonstrable protocol, science says your GOD doesn't exist. What do you say to that, son?

Student: Nothing. I only have my faith. Prof: Yes. Faith. And that is the problem science has. Student: Professor, is there such a thing as heat?

Prof: Yes. Student: And is there such a thing as cold?

Prof: Yes. Student: No sir. There isn't.

(The lecture theatre becomes very quiet with this turn of events.)

Student: Sir, you can have lots of heat, even more heat, superheat, mega heat, white heat, a little heat or no heat. But we don't have anything called cold. We can hit 458 degrees below zero which is no heat, but we can't go any further after that. There is no such thing as cold. Cold is only a word we use to describe the absence of heat. We cannot measure cold. Heat is energy. Cold is not the opposite of heat, sir, just the absence of it.

(There is pin-drop silence in the lecture theatre.)

Student: What about darkness, Professor? Is there such a thing as darkness?

Prof: Yes. What is night if there isn't darkness?

Student: You're wrong again, sir. Darkness is the absence of something. You can have low light, normal light, bright light, flashing light....But if you have no light constantly, you have nothing and it's called darkness, isn't it? In reality, darkness isn't. If it were you would be able to make darkness darker, wouldn't you?

Prof: So what is the point you are making, young man?

Student: Sir, my point is your philosophical premise is flawed.

Prof: Flawed? Can you explain how?

Student: Sir, you are working on the premise of duality. You argue there is life and then there is death, a good God and a bad God. You are viewing the concept of God as something finite, something we can measure. Sir, science can't even explain a thought. It uses electricity and magnetism, but has never seen, much less fully understood either one. To view death as the opposite of life is to be ignorant of the fact that death cannot exist as a substantive thing. Death is not the opposite of life: just the absence of it.

Now tell me, Professor. Do you teach your students that they evolved from a monkey?

Prof: If you are referring to the natural evolutionary process, yes, of course, I do.

Student: Have you ever observed evolution with your own eyes, sir?

(The Professor shakes his head with a smile, beginning to realize where the argument is going.)

Student: Since no one has ever observed the process of evolution at work and cannot even prove that this process is an on-going endeavor, are you not teaching your opinion, sir? Are you not a scientist but a preacher? (The class is in uproar.)

Student: Is there anyone in the class who has ever seen the Professor's brain?

(The class breaks out into laughter.)

Student: Is there anyone here who has ever heard the Professor's brain, felt it, touched or smelt it? No one appears to have done so. So, according to the established rules of empirical, stable, demonstrable protocol, science says that you have no brain, sir.

With all due respect, sir, how do we then trust your lectures, sir?

(The room is silent.. The professor stares at the student, his face unfathomable.)

Prof: I guess you'll have to take them on faith, son.

Student: That is it sir... The link between man & God is FAITH . That is all that keeps things moving & alive.

INTERVIEW WITH GOD

I dreamed I had an interview with God.

“So would you like to interview me”? God asked.

“If you have time”, I said.

God smiled.

“My time is eternity...What question do you have in mind for me?”

“What surprises you most about human kind?”

God answered: I really petty them,

“That they get bored with childhood, they rush to grow up, and then long to be children again.”

“That they lose their health to make money, and then lose their money to restore their health.”

“That by thinking anxiously about the future, they live in neither the present nor the future.”

“That they live as if they never die, and die as though they had never lived.”

God’s hand took mine and we were silent for a while.

And then I asked, “As a parent, what are some of life’s lessons you want your children to learn?”

“To learn they cannot make anyone love them. All they can do is let themselves be loved.”

“To learn that it is not good to compare themselves with others.”

“To learn to forgive by practicing forgiveness.”

“To learn that it only takes a few seconds to open profound wounds in those they love, and it can take many years to heal them.”

“To learn that a rich person is not one who has the most, but is one who needs the least.”

“To learn that there are people who love them dearly, but simply do not yet know how to express or show their feelings.”

“To learn that two people can look at the same thing and see it differently.”

“To learn that it is not enough that they forgive one another, but they must also forgive themselves.”

“Thank you for your time,” I said humbly.

“Is there anything else you’d like your children to know?”

God smiled and said:

“Just know that I am here...”

“Always.”

PRAY ORDINARILY FOR GOD, HE WILL DO EXTRAORDINARY FOR YOU:

"A King had a male servant who, in all circumstances always said to him; My king, do not be discouraged because everything God does is perfect, no mistakes.

One day, they went hunting and a wild animal attacked the king, the servant managed to kill the animal but couldn't prevent his majesty from losing a finger.

Furious and without showing gratitude, the King said; if God was good, I would not have been attacked and lost one finger.

The servant replied, 'despite all these things, I can only tell you that God is good and everything He does is perfect, He is never wrong'.

Outraged by the response, the king ordered the arrest of his servant. While being taken to jail, he told the king again. God is Good & Perfect. Later, he left for another hunt and was captured by savages who use human beings for sacrifice.

In the altar, the savages found out that the king didn't have one finger in place,

he was released because he was considered not "complete" to be offered to the Gods.

On his return to the palace, he authorized the release of his servant and said;

My friend, God was really good to me.

I was almost killed but for lack of a single finger I was let go. But I have a question;

If God is so good, why did He allow me to put you in jail?

He replied; My king, if I had gone with you,

I would have been sacrificed because I have no missing finger.

Everything God does is perfect, He is never wrong.

Often we complain about life, and the negative things that happen to us,

Forgetting that nothing is random, and that everything has a purpose. God knows why he chose you to receive this message today, please bless someone with it by sharing it. Everything happens for a reason, things do happen for our own Good. God is Good!!!"

Pray ordinarily for God, He will do extraordinary for you. Be natural to God, He will do supernatural for you. Do whatever possible for God, He will do what is impossible for you.

**All who call on God in true faith,
earnestly from the heart,
will certainly be heard, and will receive
what they have asked and desired.**

6. Do GOOD YOU ARE ANSWERABLE TO THE CREATOR:

By the grace of the creator, you were born as a human that is a superior being in this universe. Being so precious, we must always strive to be good, think positive, love nature, learn to share and live with others, be creative, work honestly, be honest, be genuine, be affectionate towards fellow beings. Always speak good things, listen to good things and do good things. Have good habits and good friends. There are many educated people in the world today but intelligent ones are very few. We should be like small children who are always happy as they are pure, don't have evil thoughts, and can sleep peacefully.

Every living being in this universe lives by the grace of the creator, and therefore, no one should hate another person, and should learn to live with everybody. There is peace only when you share with others and live with others: think of the welfare of others by forgetting the self.

Man is essentially individualistic. There is nothing wrong with this, but he should remember that others are also like him; then there will be no confusion, no threat, fight, disturbance or war. One has to treat everyone alike regardless of race, religion, color, caste, economic or social status.

Many times there is a smile on the face but there is no inner happiness. We must learn to control our feelings and enjoy the present, look for a better tomorrow. One day your life will flash before your eyes; make sure it is worth watching. We cannot free ourselves of the attendant miseries accompanying this mortal life cycle of birth and death by amassing wealth.

Always be alert against the four sins which the tongue is prone to commit: speaking falsehood, speaking ill of others, back biting, talking too much. Control these tendencies.

ARE YOU GOD?

A cold day in Bangalore A little boy, about 10-years-old, was standing before a shoe store on the roadway, barefooted, peering through the window, and shivering with cold. My daughter approached the young boy and said, 'Hello, why are you in such deep thought staring in that window?'

'I was asking God to give me a pair of shoes, was the boy's reply, and it is his dream that he should wear that shoes.

My daughter took him by the hand, went into the store, and asked the salesman to give him the one he liked. She also gave a shall and She patted him on the head and said, your dream has come true and be happy.

As she turned to go, the astonished kid caught her by the hand, and looking up into her face, with tears in his eyes, asked her:

'Are you God's wife?'

She said, 'No'

Then he said, 'You must be God's relative'.

GOD WILL ANSWER ALL YOUR PRAYERS:

Dr.Ahmed, A Well-Known Doctor, Was Once On His Way To An important Medical Conference in Another City Where-in He Was Going To Be Granted An Award For Medical Research He Had Recently Done. He Was Very Excited To Attend The Conference And Was Desperate To Reach As Soon As Possible. He Had Worked Long And Hard On His Research And Felt His Efforts Deserved The Award He Was About To Obtain. However, Two Hours After The Plane Took Off, The Pilot Announced That There Was A Problem With The Plane And That They Were Going To Make An Emergency Landing At The Nearest Airport. Afraid That He Wouldn't Make it in Time For The Conference, Dr.Ahmed immediately Went To The Help Desk As Soon As The Plane Landed And Explained To The Woman At The Desk That He Was Expected To Be At A Very important Conference And That He Needed To Know The immediate Next Flight To His Destination.

She Told Him That There Was Nothing She Could Do To Help Him As There Wouldn't Be Another Flight To His Destination For Another Ten Hours; But Suggested He Rent A Car And Drive Down To The City As it Was Only Four Hours Away. Having No Other Choice, He Agreed To The idea Despite His Hatred For Driving Long Distances. Dr.Ahmed Rented A Car And Started His Journey. However, Soon After He Left, The Weather Suddenly Changed And A Heavy Storm Began. The Pouring Rain Made it Very Difficult For Him To See And He Missed A Turn He Was Supposed To Take. After Two Hours Of Driving, He Was Convinced He Was Lost. Driving in The Heavy Rain On A Deserted Road, Feeling Hungry And Tired, He Frantically Began To Look For

Any Sign Of Civilization. After Some Time, He Finally Came Across A Small Tattered House.

Desperate, He Got Out Of The Car And Knocked On The Door. An Old Woman Opened The Door For Him. He Explained His Situation And Asked if He Could Use Her Telephone. She Told Him That She Didn't Have A Phone Or Electricity But That He Was Welcome To Come in For Some Food And Something Warm To Drink As He Had Completely Lost His Way And That it Would Take Him Some Time To Get Back On The Right Road. Hungry, Wet And Exhausted, The Doctor Accepted Her Kind Offer And Walked in. The Woman Told Him To Help Himself To Some Food And Hot Tea On The Table And Then Excused Herself To Finish Her Prayers.

Sitting On The Table Sipping His Tea, The Doctor Watched The Woman in The Dim Light Of The Candles As She Prayed Next To What Appeared To Be A Small Baby Crib. Every Time She Finished A Prayer, She Would Start Another One. Feeling That The Woman Might Be in Need Of Help, The Doctor Seized The Opportunity To Speak As Soon As She Finished Her Prayers And Told Her That He Hoped God Would Answer Her Prayers.

He Then Said That He Noticed That She Had Been Making A Lot Of Prayers And Asked if There Was Something She Needed That He Could Get For Her Or Help Her With. The Woman Smiled And Said That God Had Answered All Her Prayers Except For One. She Said She Didn't Know Why God Hadn't Answered This Specific Prayer Yet But Perhaps it Was Because Of Her Weak Faith.

The Doctor Asked if She Didn't Mind Telling Him What She Needed.

Nodding Her Head in Approval, She Said That The Child in The Crib Was Her Grandson And That Both His Parents Had Recently Died in A Car Accident. She Said That The Child Had A Very Rare Type Of Cancer And That All The Doctors She Had Seen Were Unable To Treat Him. She Also Said That She Had Been Told That There Was A Doctor Who Specialized in The Type Of Cancer Her Grandson Had, But There Was No Way For Her To Get To This Doctor As He Lived Very Far From Her; So She Has Been Spending Her Days And Nights Praying To God To Help Her Find A Way To Get To Dr.Ahmed The Doctor Who Could Treat Her Grandson.

Upon Hearing Her Words, Tears Began To Flow Down The Doctor's Cheeks And He Said : `God is Great, There Was A Malfunction in The Plane, A Thunderstorm Hit, And I Lost My Way; And All Of This Happened Because God Did Not Just Answer Your Prayer By Helping You Find A Way To Get To Dr.Ahmed, But He Brought Dr.Ahmed To Your House. I Am Dr. Ahmed.'

With Tears Streaming Down Her Cheeks,The Woman Raised Her Hands Prayed

" Oh God, How Great And Merciful You Are !

THE ANT & THE CONTACT LENS!!!

Brenda was almost halfway to the top of the tremendous granite cliff. She was standing on a ledge where she was taking a breather during this, her first rock climb. As she rested there, the safety rope snapped against her eye and knocked out her contact lens .

"Great", she thought. "Here I am on a rock ledge, hundreds of feet from the bottom and hundreds of feet to the top of this cliff, and now my sight is blurry." She looked and looked, hoping that somehow the lens had landed on the ledge. But it just wasn't there.

She felt the panic rising in her, so she began praying. She prayed for calm, and she prayed that she may find her contact lens. When she got to the top, a friend examined her eye and her clothing for the lens, but it was not to be found. Although she was calm now that she was at the top, she was saddened because she could not clearly see across the range of mountains. She thought, "Lord, You can see all these mountains. You know every stone and leaf, and You know exactly where my contact lens is. Please help me.." Later, when they had hiked down the trail to the bottom of the cliff they met another party of climbers just starting up the face of the cliff. One of them shouted out, "Hey, you guys! Anybody lose a contact lens?"

Well, that would be startling enough, but you know why the climber saw it? An ant was moving slowly across a twig on the face of the rock, carrying it! Brenda's father was a cartoonist. When she told him the incredible story of the ant, the prayer, and the contact lens, he drew a cartoon of an ant lugging that contact lens with the caption, "Lord, I don't know why You want me to carry this thing. I can't eat it, and it's awfully heavy. But if this is what You want me to do, I'll carry it for You." I think it would do all of us some good to say, "God, I don't know why You want me to carry this load. I can see no good in it and it's awfully heavy. But, if You want me to carry it, I will."

CONFIDENTLY WALK INTO ANYTHING GOD BRINGS OUR WAY:

Two men went fishing. One man was an experienced fisherman, the other wasn't.

Every time the experienced fisherman caught a big fish, he put it in his ice chest to keep it fresh. Whenever the inexperienced fisherman caught a big fish, he threw it back.

The experienced fisherman watched this go on all day and finally got tired of seeing this man waste good fish.

"Why do you keep throwing back all the big fish you catch?" he asked.

The inexperienced fisherman replied, "I only have a small frying pan."

Sometimes, like that fisherman, we throw back the big plans, big dreams, and big opportunities that God gives us, for a simple reason that "Our faith is too small."

We laugh at that fisherman who didn't figure out that all he needed was a bigger frying pan; yet how ready are we to increase the size of our faith?

Whether it's a problem or a possibility, God will never give us anything bigger than we can handle. That means we can confidently walk into anything God brings our way.

TALENTED PERSON: NOTHING HAPPENS WITHOUT GOD'S GRACE

A Gynecologist of repute, who is very considerate was asked to attend to a poor pregnant woman who was undergoing labor pain. The child was struggling to come out of the womb had no legs and it had only two small stumps of flesh projecting from the waist downwards. The Doctor was moved to compassion and pondered for few moments. If she deliver the crippled child alive, it will be lifelong liability and therefore decided to throttle the neck of the child in forceps and declare that the child was born dead. At the most the poor woman may feel for few days and there will be no permanent liability on her, while she was preparing to do a second though came to her that who is she to do that when God has decided such a child to poor lady and decided to help to get the child delivered safely.

Years rolled, the Doctor retired and spending her time with grandchildren and one day she has to go for their school function. Mr. robin was brought to the stage in a wheel chair to entertain the audience. Mr. robin thrilled the audience and they had all the prize for Robin. The children rolled with laughter and elders were wonder struck with the talent he possessed. The Doctor decided to offer flowers and went to back stage to meet Mr. Robin. The mother of robin fell to the feet of Doctor and reminded her that she was the one who helped in delivery without taking penny, and but for her Robin would not have been on this earth. The Doctor remembered the incidence and she was stunned. She prayed Lord for preventing her take out the life of child. If she perpetrated that crime, how many children of the world would have been prevented with such a talented person.

PRAYERS PAY:

A old lady of 80 years, widowed at her age of 28 years devoted to Lord Krishna. She stays in remote village, she inherited small Saligrama – a stone which possessed all the divine powers of Lord Krishna and she was offering per prayers to it. She had never come out of her village and one day she saw the photograph of Lord Krishna possessed by her neighbor. She had desire to possess one picture of Lord Krishna but not available in her village and it was sold in city. As she was old and nobody with her, she started praying constantly to Lord that he should come to her hut. Within one week of her prayers, a stranger came to her hut with some excuse and gave her six pictures of Lord Krishna telling that somebody wanted to dispose and he brought and if she is interested, she can keep all the six pictures. She tells me that God does respond to the sincere prayers of his devotees.

FOOTPRINTS

One night a man dreamed he was walking along with GOD. As scenes of his life flashed before him, he noticed that there were TWO sets of FOOTPRINTS in the sand. He also noticed at his saddest, lowest times there were only ONE set of FOOTPRINTS. "Did YOU not promise that if I give my heart to YOU that YOU would be with me all the way? Then why is there only ONE set of FOOTPRINTS during most of my troublesome times?"

GOD replied, "My Precious Child, I love you and would never forsake you. During those times of trial and suffering when you see only ONE set of FOOTPRINTS, it was then I carried you."

BE GOOD AND DO GOOD:

There is a man who lived in a forest. A tiger came behind him, he started running. There were so many thorns and stone on the way, but somehow he ran, When he was running, a fire started in the forest. He had to run amidst the fire. If he kept his legs down, it was burning hot. He could not stop, as the tiger was behind him. Now he almost fell in to a river. As he fell, he caught hold of the root of a tree. He was hanging there. When he looked down, a crocodile was opening its mouth. When he looked up, the tiger stood snarling. Somehow he was managing in-between, holding on to the root. On one end of it was a white rat and the other end a black rat, both biting the ends of the root. There was a honey hive above from where the honey was overflowing and falling into the mouth drop by drop.

Now the inferences from the above lines are as below:

The crocodiles with its mouth wide open, symbolizes death. The tiger stands for life. The black and white rats are night and day. As they progress, the rope is going to get cut and you are nearing the crocodile's mouth. Now and then, a drop of honey falling into your mouth makes you happy and in this happiness, you forget death. When the drop of honey falls in to your mouth, you imagine everything is fine.- it is not so. The marathon of life never stops your legs have not escaped the heat. When you know that this is meaningless, spiritualism automatically sets in.

The doctrine of 'be good, do good' is based on the Eternal Truth. In this modern era of reasoning and rationalism, people debate what is good and what is bad. Our problem is how to distinguish

good from bad, true from falsehood, right from wrong. The best method is to apply the principle to one's own self. 'When I do good, I feel good. When I do bad, I feel bad.' Do to others as you wish it to be done to you!

Albert Einstein said, "It is every man's obligation to put back into the world, at least the equivalent of what he takes out of it. Only a life lived for others is a life worthwhile."

All of us must give willingly. In the end, life will let us hold nothing back - we must give all we have! We cannot hold on to anything, anyway. If we do, we will wish we had let it go. Let us then give as we have received. Life will always strike the balance in our favour. Even if we give freely, we will never be able to give back more than a fraction of what we receive.

COMMUNICATION WITH GOD:

One day a construction supervisor from 6th floor of building was calling a worker working on the ground floor. Because of construction noise, the worker on ground floor did not hear his supervisor calling.

Then, to draw the attention of worker, the supervisor threw a 10 rupee note from up, which fell right in front of the worker. The worker picked up the 10 rupee note, put it in his pocket & continued with his work.

Again to draw the attention of worker, the supervisor now threw a 500 rupee note & the worker did the same, picked up the 500 rupee note, put it in his pocket & started doing his job.

Now to draw attention of the worker, the supervisor picked a small stone & threw it on worker. The stone hit exactly the worker on his head. This time the worker looked up & the supervisor communicated with the worker.

This story is same as of our life. Lord from up, wants to communicate with us, but we are busy doing our worldly jobs. Then God give us small gifts and we just keep it without seeing from where we got it.

Then God gives us amounts (gifts) & we are the same. We just keep the gifts without seeing from where it came and & not even thanking God. We just say we are LUCKY.

Then when we are hit with a small stone, which we call 'problems', and then we look up & we communicate with God.

SO EVERYTIME WE GET A GIFT, WE SHOULD THANK GOD IMMEDIATELY, AND NOT WAIT TILL WE ARE HIT BY A SMALL STONE, AND THEN COMMUNICATE WITH GOD..

Reunion after 35 years by god's grace:

The brand new pastor and his wife, newly assigned to their first ministry, to reopen a church in suburban Brooklyn, arrived in early October excited about their opportunities. When they saw their church, it was very run down and needed much work. They set a goal to have everything done in time to have their first service on Christmas Eve. They worked hard, repairing pews, plastering walls, painting etc, on December 18 were ahead of schedule and just about finished. On December 19 a terrible tempest - a driving rainstorm hit the area and lasted for two days. On the 21st, the pastor went over to the church. His heart sank when he saw that the roof had leaked, causing a large area of plaster about 20 feet by 8 feet to fall off the front wall of the sanctuary just behind the pulpit, beginning about head high. The pastor cleaned up the mess on the floor, and not knowing what else to do but postpone the Christmas Eve service, headed home. On the way he noticed that a local business was having a flea market type sale for charity, so he stopped in. One of the items was a beautiful, handmade, ivory colored, crocheted tablecloth with exquisite work, fine colors and a Cross embroidered right in the center. It was just the right size to cover the hole in the front wall. He bought it and headed back to the church. By this time it had started to snow. An older woman running from the opposite direction was trying to catch the bus. She missed it. The pastor invited her to wait in the warm church for the next bus 45 minutes later. She sat in a pew and paid no attention to the pastor while he got a ladder, hangers, etc., to put up the tablecloth as a wall tapestry. The pastor could hardly believe how beautiful it looked and it covered up the entire problem area. Then he noticed the woman walking down the center aisle. Her face was like a sheet. "Pastor," she asked, "where did you get that tablecloth?" The pastor explained. The woman asked

him to check the lower right corner to see if the initials, EBG were crocheted into it there. They were. These were the initials of the woman, and she had made this tablecloth 35 years before, in Austria .. The woman could hardly believe it as the pastor told how he had just gotten "The Tablecloth". The woman explained that before the war she and her husband were well-to-do people in Austria. When the Nazis came, she was forced to leave. Her husband was going to follow her the next week. He was captured, sent to prison and never saw her husband or her home again. The pastor wanted to give her the tablecloth; but she made the pastor keep it for the church.. The pastor insisted on driving her home. That was the least he could do. She lived on the other side of Staten Island and was only in Brooklyn for the day for a housecleaning job. What a wonderful service they had on Christmas Eve. The church was almost full. The music and the spirit were great. At the end of the service, the pastor and his wife greeted everyone at the door and many said that they would return. One older man, whom the pastor recognized from the neighborhood continued to sit in one of the pews and stare, and the pastor wondered why he wasn't leaving.

The man asked him where he got the tablecloth on the front wall because it was identical to one that his wife had made years ago when they lived in Austria before the war and how could there be two tablecloths so much alike? He told the pastor how the Nazis came, how he forced his wife to flee for her safety and he was supposed to follow her, but he was arrested and put in a prison. He never saw his wife or his home again all the 35 years between. The pastor asked him if he would allow him to take him for a little ride. They drove to Staten Island and to the same house where the pastor had taken the woman three days earlier. He helped the man climb the three flights of stairs to the woman's apartment, knocked on the door and he saw the greatest Christmas reunion he could ever imagine. True Story - submitted by Pastor

AFTER DARKNESS OF NIGHT, THE DAY FOLLOWS WITH LIGHT:

***LIFE** is no doubt full of problems of different kind to different people. Problems in family, Problems in work place, Problems of unemployment, Problems of being rejected and looked down upon by the society. Some time you feel so helpless with no hope around. When faced with the problems, some even doubt the very existence of God. Be honest with your feelings to God and express all your problems to him, he is there to listen to you and rescue you with the problem. After all after darkness of night, the day follows with light.

*** TALK** to God on your own as often as you can. Remember, you do need special words to talk to God. Faith in him is the language that God desires in you when you talk to him.

***Do you know why God created Gaps between fingers?**
So that someone who is special to you **COMES**
and fills those gaps by Holding your hand forever.

***Never forget this advice!** Happiness keeps You Sweet,
Trials keep You Strong, Success keeps You Glowing,
And but Only God keeps You Going!

CREATING THE UNIVERSE

God was in the process of creating the universe.

And he was explaining to his subordinates 'Look everything should be in balance. For example, after every 10 deer there should be a lion. Look here my fellow angels....

Here is the country of the United States . I have blessed them with prosperity and money. But at the same time I have given them insecurity & tension....

And here is Africa . I have given them beautiful nature. But at the same time, I have given them climatic extremes.

And here is South America . I have given them lots of forests. But at the same time, I have given them lesser Land so that they would have to cut off the forests...

So you see fellows, everything should be in balance.

One of the angels asked...

'God, what is this extremely beautiful country here?' God said..... 'Ahah...that is the crown piece of all.

' INDIA ',
My most precious creation. It has understanding & friendly people Sparkling streams and serene mountains. A culture which speaks of the great tradition that they live. Technologically brilliant , and with a heart of gold.....

The scientific explanation for visiting temple regularly

Very Informative and this info should make all our people believe that our ancestors were not a bunch of idiots. I APPEAL TO PEOPLE OF ALL FAITHS TO PERUSE THIS.

Well, here is a scientific explanation.....just read on.

There are hundreds of temples all over India in different size, shape and locations but not all of them are considered to be in the Vedic way.

Generally, the temples are located in a place where earth's magnetic waves pass through. In simple terms, these temples are located strategically at a place where the positive energy is abundantly available from the magnetic wave distribution of north/ south pole thrust.

Because of its location, where high magnetic

values are available, the Main Idol is placed in the center, and also because they place a copper plate written with some Vedic scripts, which is buried, beneath the Main Idol's placement known as "Garbhagriha" or Moolasthan, the copper absorbs the earth's magnetic waves and radiates to the surroundings. Thus a person who regularly visits a temple and makes clockwise pradakshina of the Main Idol's placement, automatically receives the beamed magnetic waves which get absorbed by his body. This is very slow and a regular visit will make him absorb more energy, known as positive energy. In addition, the Sanctum Sanctorum is completely enclosed on three sides. The effect of all energies is very high in here. The Lamp that is lit radiates the heat and light energy.

The ringing of the bells and the chanting of prayers gives sound energy. The fragrance from the flowers, the burning of camphor give out chemical energy. The effect of all these energies is activated by the positive energy that comes out of the idol. This is in addition to the north/south pole magnetic energy that is absorbed by the copper plate and utensils that are kept in the Moolasthan.

The water used for the Pooja is mixed with Cardamom, Benzoin, Holy Basil (Tulsi), Clove, etc is the "Theertham". This water becomes more energized because it receives the positive-ness of all these energies combined. When persons go to the temple for Deepaaraadhana, and when

the doors open up, the positive energy gushes out onto the persons who are there. The water that is sprinkled onto the people passes on the energy to all. That is the reason why, men are not allowed to wear shirts to the temple and ladies have to wear more ornaments because it is through these jewels (metal) that positive energy is absorbed in ladies. It is proved that Theertham is a very good blood purifier, as it is highly energized.

In addition, temples offer holy water (about three spoons). This water is mainly a source of magneto therapy as they place the copper water vessel at the Garbhagriha. It also contains cardamom, clove, saffron, etc to add taste and Tulsi (holy Basil) leaves are put into the water to increase its medicinal value! The clove essence protects one from tooth decay, the saffron & Tulsi Leave essence protects one from common cold and cough, cardamom and benzoine known as Pachha Karpuram, acts as a mouth refreshing agents. This way, one's health too is protected, by regularly visiting Temples !

Is God just? Why is there so much suffering in the world? If God is almighty, then why doesn't he do anything?

Just once wouldn't you love for someone to simply show you the evidence for God's existence? No arm-twisting. No statements of, "You just have to

believe." Well, here is an attempt to candidly offer some of the reasons which suggest that God exists.

But first consider this. When it comes to the possibility of God's existence, the Bible says that there are people who have seen sufficient evidence, but they have suppressed the truth about God.¹ On the other hand, for those who want to know God if he is there, he says, "You will seek me and find me; when you seek me with all your heart, I will be found by you."² Before you look at the facts surrounding God's existence, ask yourself, *If God does exist, would I want to know him?* Here then, are some reasons to consider...

1. Does God exist? The complexity of our planet points to a deliberate Designer who not only created our universe, but sustains it today.

Many examples showing God's design could be given, possibly with no end. But here are a few:

The Earth...its size is perfect. The Earth's size and corresponding gravity holds a thin layer of mostly nitrogen and oxygen gases, only extending about 50 miles above the Earth's surface. If Earth were smaller, an atmosphere would be impossible, like the planet Mercury. If Earth were larger, its atmosphere would contain free hydrogen, like Jupiter.³ Earth is the only known planet equipped with an atmosphere of the right mixture of gases to sustain plant, animal and human life.

The Earth is located the right distance from the sun. Consider the temperature swings we encounter, roughly -30 degrees to +120 degrees. If the Earth were any further away from the sun, we would all freeze. Any closer and we would burn up. Even a fractional variance in the Earth's position to the sun would make life on Earth impossible. The Earth remains this perfect distance from the sun while it rotates around the sun at a speed of nearly 67,000 mph. It is also rotating on its axis, allowing the entire surface of the Earth to be properly warmed and cooled every day.

And our moon is the perfect size and distance from the Earth for its gravitational pull. The moon creates important ocean tides and movement

so ocean waters do not stagnate, and yet our massive oceans are restrained from spilling over across the continents.⁴

Water...colorless, odorless and without taste, and yet no living thing can survive without it. Plants, animals and human beings consist mostly of water (about two-thirds of the human body is water). You'll see why the characteristics of water are uniquely suited to life:

It has an unusually high boiling point and freezing point. Water allows us to live in an environment of fluctuating temperature changes, while keeping our bodies a steady 98.6 degrees.

Water is a universal solvent. This property of water means that various chemicals, minerals and nutrients can be carried throughout our bodies and into the smallest blood vessels.⁵

Water is also chemically neutral. Without affecting the makeup of the substances it carries, water enables food, medicines and minerals to be absorbed and used by the body.

Water has a unique surface tension. Water in plants can therefore flow upward against gravity, bringing life-giving water and nutrients to the top of even the tallest trees.

Water freezes from the top down and floats, so fish can live in the winter.

Ninety-seven percent of the Earth's water is in the oceans. But on our Earth, there is a system designed which removes salt from the water and then distributes that water throughout the globe. Evaporation takes the ocean waters, leaving the salt, and forms clouds which are easily moved by the wind to disperse water over the land, for vegetation, animals and people. It is a system of purification and supply that sustains life on this planet, a system of recycled and reused water.⁶

The human brain...simultaneously processes an amazing amount of information. Your brain takes in all the colors and objects you see, the temperature around you, the pressure of your feet against the floor, the sounds around you, the dryness of your mouth, even the texture of your keyboard. Your brain holds and processes all your emotions, thoughts and

memories. At the same time your brain keeps track of the ongoing functions of your body like your breathing pattern, eyelid movement, hunger and movement of the muscles in your hands.

The human brain processes more than a million messages a second.⁷ Your brain weighs the importance of all this data, filtering out the relatively unimportant. This screening function is what allows you to focus and operate effectively in your world. The brain functions differently than other organs. There is an intelligence to it, the ability to reason, to produce feelings, to dream and plan, to take action, and relate to other people. A human brain is most powerful than any man made machine till date.

The eye...can distinguish among seven million colors. It has automatic focusing and handles an astounding 1.5 million messages -- simultaneously.⁸ Evolution focuses on mutations and changes from and within existing organisms. Yet evolution alone does not fully explain the initial source of the eye or the brain -- the start of living organisms from nonliving matter.

2. Does God exist? The universe had a start - what caused it?

Scientists are convinced that our universe began with one enormous explosion of energy and light, which we now call the Big Bang. This was the singular start to everything that exists: the beginning of the universe, the start of space, and even the initial start of time itself.

"The seed of everything that has happened in the Universe was planted in that first instant; every star, every planet and every living creature in the Universe came into being as a result of events that were set in motion in the moment of the cosmic explosion...The Universe flashed into being, and we cannot find out what caused that to happen."⁹

Steven Weinberg, a Nobel laureate in Physics, said at the moment of this explosion, "the universe was about a hundred thousands million degrees Centigrade...and the universe was filled with light."¹⁰

The universe has not always existed. It had a start...what caused that? Scientists have no explanation for the sudden explosion of light and matter.

3. Does God exist? The universe operates by uniform laws of nature. Why does it?

Much of life may seem uncertain, but look at what we can count on day after day: gravity remains consistent, a hot cup of coffee left on a counter will get cold, the earth rotates in the same 24 hours, and the speed of light doesn't change -- on earth or in galaxies far from us.

How is it that we can identify laws of nature that *never* change? Why is the universe so orderly, so reliable?

"The greatest scientists have been struck by how strange this is. There is no logical necessity for a universe that obeys rules, let alone one that abides by the rules of mathematics. This astonishment springs from the recognition that the universe doesn't have to behave this way. It is easy to imagine a universe in which conditions change unpredictably from instant to instant, or even a universe in which things pop in and out of existence."¹¹

Richard Feynman, a Nobel Prize winner for quantum electrodynamics, said, "Why nature is mathematical is a mystery...The fact that there are rules at all is a kind of miracle."¹²

4. Does God exist? The DNA code informs, programs a cell's behavior.

All instruction, all teaching, all training comes with intent. Someone who writes an instruction manual does so with purpose. Did you know that in every cell of our bodies there exists a very detailed instruction code, much like a miniature computer program? As you may know, a computer program is made up of ones and zeros, like this:

110010101011000. The way they are arranged tell the computer program what to do. The DNA code in

each of our cells is very similar. It's made up of four chemicals that scientists abbreviate as A, T, G, and C. These are arranged in the human cell like this: CGTGTGACTCGCTCCTGAT and so on. There are three billion of these letters in every human cell!!

Well, just like you can program your phone to beep for specific reasons, DNA instructs the cell. DNA is a three-billion-lettered program telling the cell to act in a certain way. It is a full instruction manual.¹³

Why is this so amazing? One has to ask....how did this information program wind up in each human cell? These are not just chemicals. These are chemicals that instruct, that code in a very detailed way exactly how the person's body should develop.

Natural, biological causes are completely lacking as an explanation when programmed information is involved. You cannot find instruction, precise information like this, without someone intentionally constructing it.

5. Does God exist? We know God exists because he pursues us. He is constantly initiating and seeking for us to come to him.

I was an atheist at one time. And like many atheists, the issue of people believing in God bothered me greatly. What is it about atheists that we would spend so much time, attention, and energy refuting something that we don't believe even exists?! What causes us to do that? When I was an atheist, I attributed my intentions as caring for those poor, delusional people...to help them realize their hope was completely ill-founded. To be honest, I also had another motive. As I challenged those who believed in God, I was deeply curious to see if they could convince me otherwise. Part of my quest was to become free from the question of God. If I could conclusively prove to believers that they were wrong, then the issue is off the table, and I would be free to go about my life.

I didn't realize that the reason the topic of God weighed so heavily on my mind, was because God was pressing the issue. I have come to find out that God wants to be known. He created us with the intention that we would know him. He has surrounded us with evidence of himself and he keeps the question of his existence squarely before us. It was as if I couldn't escape thinking about the possibility of God. In fact, the day I chose to acknowledge God's existence, my prayer began with, "Ok, you win..." It

might be that the underlying reason atheists are bothered by people believing in God is because God is actively pursuing them.

I am not the only one who has experienced this. Malcolm Muggeridge, socialist and philosophical author, wrote, "I had a notion that somehow, besides questing, I was being pursued." C.S. Lewis said he remembered, "...night after night, feeling whenever my mind lifted even for a second from my work, the steady, unrelenting approach of Him whom I so earnestly desired not to meet. I gave in, and admitted that God was God, and knelt and prayed: perhaps, that night, the most dejected and reluctant convert in all of England."

Lewis went on to write a book titled, "Surprised by Joy" as a result of knowing God. I too had no expectations other than rightfully admitting God's existence. Yet over the following several months, I became amazed by his love for me.

6. Does God exist? Unlike any other revelation of God, Jesus Christ is the clearest, most specific picture of God revealing himself to us.

Why Jesus? Look throughout the major world religions and you'll find that Buddha, Muhammad, Confucius and Moses all identified themselves as teachers or prophets. None of them ever claimed to be equal to God. Surprisingly, Jesus did. That is what sets Jesus apart from all the others. He said God exists and you're looking at him. Though he talked about his Father in heaven, it was not from the position of separation, but of very close union, unique to all humankind. Jesus said that anyone who had seen Him had seen the Father, anyone who believed in him, believed in the Father.

He said, "I am the light of the world, he who follows me will not walk in darkness, but will have the light of life."¹⁴ He claimed attributes belonging only to God: to be able to forgive people of their sin, free them from habits of sin, give people a more abundant life and give them eternal life in heaven. Unlike other teachers who focused people on their words, Jesus pointed people to himself. He did not say, "follow my words and you will find truth." He said, "I am the way, the truth, and the life, no one comes to the Father but through me."¹⁵

What proof did Jesus give for claiming to be divine? He did what people can't do. Jesus performed miracles. He healed people...blind,

crippled, deaf, even raised a couple of people from the dead. He had power over objects...created food out of thin air, enough to feed crowds of several thousand people. He performed miracles over nature...walked on top of a lake, commanding a raging storm to stop for some friends. People everywhere followed Jesus, because he constantly met their needs, doing the miraculous. He said if you do not want to believe what I'm telling you, you should at least believe in me based on the miracles you're seeing.¹⁶

Jesus Christ showed God to be gentle, loving, aware of our self-centeredness and shortcomings, yet deeply wanting a relationship with us. Jesus revealed that although God views us as sinners, worthy of his punishment, his love for us ruled and God came up with a different plan. God himself took on the form of man and accepted the punishment for our sin on our behalf. Sounds ludicrous? Perhaps, but many loving fathers would gladly trade places with their child in a cancer ward if they could. The Bible says that the reason we would love God is because he first loved us.

Jesus died in our place so we could be forgiven. Of all the religions known to humanity, only through Jesus will you see God reaching toward humanity, providing a way for us to have a relationship with him. Jesus proves a divine heart of love, meeting our needs, drawing us to himself. Because of Jesus' death and resurrection, he offers us a new life today. We can be forgiven, fully accepted by God and genuinely loved by God. He says, "I have loved you with an everlasting love, therefore I have continued my faithfulness to you."¹⁷ This is God, in action.

Does God exist? If you want to know, investigate Jesus Christ. We're told that "God so loved the world that he gave his only Son, that whoever believes in him should not perish but have eternal life."¹⁸

God does not force us to believe in him, though he could. Instead, he has provided sufficient proof of his existence for us to willingly respond to him. The earth's perfect distance from the sun, the unique chemical properties of water, the human brain, DNA, the number of people who attest to knowing God, the gnawing in our hearts and minds to determine.

If you want to begin a relationship with God now, you can.

This is your decision, no coercion here. But if you want to be forgiven by God and come into a relationship with him, you can do so right now by asking him to forgive you and come into your life. Jesus said, "Behold, I

stand at the door [of your heart] and knock. He who hears my voice and opens the door, I will come into him [or her]."¹⁹ If you want to do this, but aren't sure how to put it into words, this may help: "Jesus, thank you for dying for my sins. You know my life and that I need to be forgiven. I ask you to forgive me right now and come into my life. I want to know you in a real way. Come into my life now. Thank you that you wanted a relationship with me. Amen."

God views your relationship with him as permanent. Referring to all those who believe in him, Jesus Christ said of us, "I know them, and they follow me; and I give them eternal life, and they shall never perish, and no one shall snatch them out of my hand."²⁰

In communing with God, you gain strength that comes in no other way. You find the wisdom and courage to face life and overcome.

GAYATRI MANTRA

***GAYATRI MANTRA ***

Scientific Meaning of Gaytri Manthra

***Gayatri mantra has been bestowed the greatest importance in Vedic dharma. This mantra has also been termed as Savitri and Ved-Mata, the mother of the Vedas. ***

***Ombhur bhuvah swah **
Tat savitur varenyam
Bhargo devasya dheemahi
Dhiyo yo nah prachodayat ***

***The literal meaning of the mantra is: ** ***

***O God! You are Omnipresent, Omnipotent and Almighty. You are all Light. You are all Knowledge and Bliss. You are Destroyer of fear, You are Creator of this Universe, You are the Greatest of all. We bow and meditate upon Your light. You guide our intellect in the right direction. The mantra, however, has a great scientific import too, which somehow got lost in the literary tradition. The modern astrophysics and astronomy tell us that our Galaxy called Milky Way or Akash-Ganga contains approximately 100,000 million of stars. Each star is like our sun having its own planet system. We know that the moon moves round the earth and the earth moves round the sun along with the moon. All planets round the sun. Each of the above bodies revolves round at its own axis as well. Our sun along with its family takes one round of the galactic center in 22.5 crore years. All galaxies including ours are moving away at a terrific velocity of 20,000 miles per second. ***

***And now the alternative scientific meaning of the mantra step by step: ***

***(A) OM BHUR BHUVAH SWAH:** ** ***

***Bhur the earth, bhuvah the planets (solar family), swah the Galaxy. We observe that when an ordinary fan with a speed of 900 RPM (rotations Per minute) moves, it makes noise. Then, one can imagine, what great noise would be created when the galaxies move with a speed of 20,000 miles per second. This is what this portion of the mantra explains that the sound produced due to the fast-moving earth, planets and galaxies is Om. The sound was heard during meditation by Rishi Vishvamitra, who mentioned it to other colleagues. All of them, then unanimously decided to call this sound Om.**

***B) TAT SAVITUR VARENYAM: ** ***

***Tat that (God), savitur the sun (star), varenyam worthy of bowing or respect. Once the form of a person along with the name is known to us, we may locate the specific person. Hence the two titles (upadhi) provide the solid ground to identify the formless God, Vishvamitra suggested. He told us that we could know (realize) the unknowable formless God through the known factors, viz., sound Om and light of suns (stars).**

***C) BHARGO DEVASYA DHEEMAHI: ** ***

***Bhargo the light, devasya of the deity, dheemahi we should meditate. The rishi instructs us to meditate upon the available form (light of suns) to discover the formless Creator (God). Also he wants us to do japa of the word Om (this is understood in the Mantra). This is how the sage wants us to proceed, but there is a great problem to realize it, as the human mind is so shaky and restless that without the grace of the Supreme (Brahma) it cannot be controlled. Hence Vishvamitra suggests the way to pray Him as under: ***

***D) DHIYO YO NAH PRACHODAYAT: ** ***

***Dhiyo (intellect), yo (who), nah (we all), prachodayat (guide to right Direction). O God! Deploy our intellect on the right path. Full scientific interpretation of the Mantra: The earth (bhur), the planets (bhuvah), and the galaxies (swah) are moving at a very great velocity, the sound produced is Om, (the name of formless God.) That God (tat), who manifests Himself in the form of light of suns (savitur) is worthy of bowing/respect (varenyam). We all, therefore, should meditate (dheemahi) upon the light (bhargo) of that deity (devasya) and also do chanting of Om. May He (yo) guide in right direction (prachodayat) our(nah) intellect dhiyo. So we notice that the important points hinted in the mantra are:- ** ***

***1) The total kinetic energy generated by the movement of galaxies acts as an umbrella and balances the total energy consumption of the cosmos. Hence**

it was named as the Pranavah (body of energy). This is equal to $1/2 mv^2$ (Mass of galaxies x velocity²). ** *

* *

***2) Realizing the great importance of the syllable OM, the other later date religions adopted this word with a slight change in accent, viz., amen and Ameen.** ***

Dr.Howard Steingeril, an American scientist, collected Mantras, Hymns and invocations from all over the world and tested their strength in his Physiology Laboratory..

Hindus' Gayatri Mantra produced 110,000 sound waves per second.. This was the highest and was found to be the most powerful hymn in the world. Through the combination of sound or sound waves of a particular frequency, the Mantra is claimed capable of developing specific spiritual potentialities.

The Hamburg university initiated research into the efficacy of the Gayatri Mantra both on the mental and physical plane of CREATION...
